

Master Court Queue

Adjudication Docket (Batch 2)

Adjudication results across the second active batch of the court queue: **DOCU**, **CPRT**, **PRX.AS**, **RH**, **SEDG**, and **FIZZ**. Every candidate has undergone blinded adversarial prosecution and balance-sheet audit grounded in primary financial filings.

TICKER	NAME / BUSINESS	SPOT PRICE	ADJUDICATED VERDICT	PRIMARY FORENSIC MECHANISM / GATE
DOCU	DocuSign (e-Signature/IAM)	\$59.33	OWNABLE (2.0%)	\$1.25B FCF on \$3.29B rev (38.1% FCF margin); \$630.8M net cash; 11.6x Fwd P/E, 8.5x EV/FCF.
CPRT	Copart (Salvage Auto Auction)	\$32.67	OWNABLE (1.5%)	+\$4.11B net cash; 42.3% EBITDA margin; irreplaceable 18k-acre global salvage land bank.
PRX.AS	Prosus N.V. (Tencent Holding)	€38.01	OWNABLE (1.5%)	35% NAV discount to €95B+ Tencent stake; continuous accretive buyback machine.
RH	Restoration Hardware (Luxury)	\$148.57	REJECT / FLAT	\$4.02B debt vs \$53.8M cash (\$3.97B net debt = 141% of mcap; 8.2x EBITDA leverage).
SEDG	SolarEdge Technologies (Solar)	\$33.08	REJECT / FLAT	Negative EBITDA (-\$121M); severe European inverter channel inventory collapse.
FIZZ	National Beverage (LaCroix)	\$32.96	WATCH (\$30-32)	\$290.6M net cash (10% of cap), zero debt, but seltzer volume growth is flatlining.

ACTIONABLE ADDITIONS

The Three High-Conviction Compounders: DOCU, CPRT, PRX.AS

DOCU — 38% FCF SOFTWARE MONOPOLY

OWNABLE (2.0% Allocation Cap)

The Setup: Enterprise agreement workflow infrastructure generating \$1.25B in annual cash on 80.2% gross margin. Priced at 8.56x EV/FCF with +\$631M in net cash and ongoing share repurchases.

CPRT — SALVAGE LAND BANK FORTRESS

OWNABLE (1.5% Allocation Cap)

The Setup: Unreplicable physical salvage auction network with 18,000+ acres of freehold land. Pullback offers 19.5x P/E entry backed by \$4.11B in net cash (13% of market cap).

AVOIDANCE VICTORIES

The Fatal Balance Sheet Kills: RH & SEDG

TICKER	OPTICAL SEDUCTION	THE FATAL FORENSIC KILL (BALANCE SHEET REALITY)
RH	Iconic luxury brand down -42% from highs.	Extreme Debt Leverage: \$4.02B in total debt against just \$53.8M in cash. Net debt of \$3.97B represents 141% of market cap and 8.2x EBITDA leverage into housing stagnation.
SEDG	Solar inverter leader down -59% from highs.	Negative Operational Cash Generation: EBITDA is negative (-\$121M) due to European channel saturation and structural inverter commoditization against Tesla and Enphase.
