COMPANY OVERVIEW

Cheba Hut, the franchisor, was founded in 1998 with a simple mission - to make delicious and unique sub sandwiches that appeal to a younger consumer demographic that legacy food brands often have difficulty connecting with. The menu is anchored by 30+ sandwich options, sweet treat “munchies”, gorgeous flavorful salads, and specialty alcoholic beverages which cement a strong foundational market position. Since its inception, the brand has expanded to over 79 locations in 19 states.

Seeing the opportunity to get into a growth system, David Timmons founded Elevated Inc. in 2012 to broaden the Cheba Hut brand in Colorado. What began as two units in Fort Collins has gradually grown into the concept's largest franchisee operating 25 units across both Colorado and Nevada. The company has exclusive development rights for Colorado, Nevada and Kansas, including Kansas City, MO.

In 2020 Kyle Archer, joined Elevated as a partner and CFO. The unified mission: to spread good vibes, tasty food and curated beverages in welcoming spaces.

Just below the mainstream purchasing channels is a shifting demand dynamic. There is a counter-culture with enormous purchasing power - and they spend it. This “counter-culture” category expands at the expense of other demographic categories. It is becoming “mainstream” as the broad consumer base ages. Cheba is there now, with a loyal and growing customer reach. Cheba Hut is not yesterday's pedestrian sandwich shop. It's current and on-trend today.

CATEGORY OVERVIEW

FAST CASUAL SEGMENT

Limited-Service restaurants are taking share from full-service restaurants on a perpetual basis, observable in the decade preceding COVID (2009-2019). This was accelerated during the pandemic, and steadied afterwards, but regained momentum in 2023 and 2024

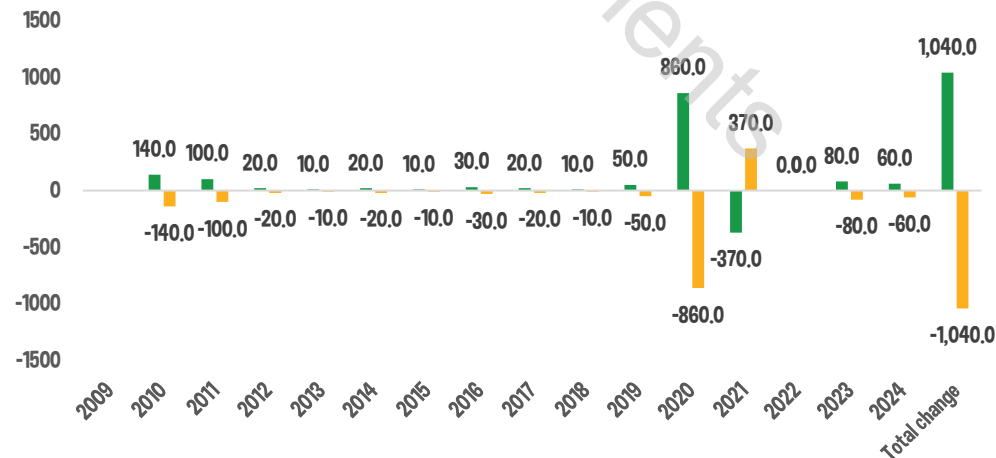

The table below shows the limited-service segment took ~1040 basis points from full service over the period (69 bps per year), and the trend was persistent over this timeframe. Limited service took share every single year, except for 2021 and 2022 (COVID)

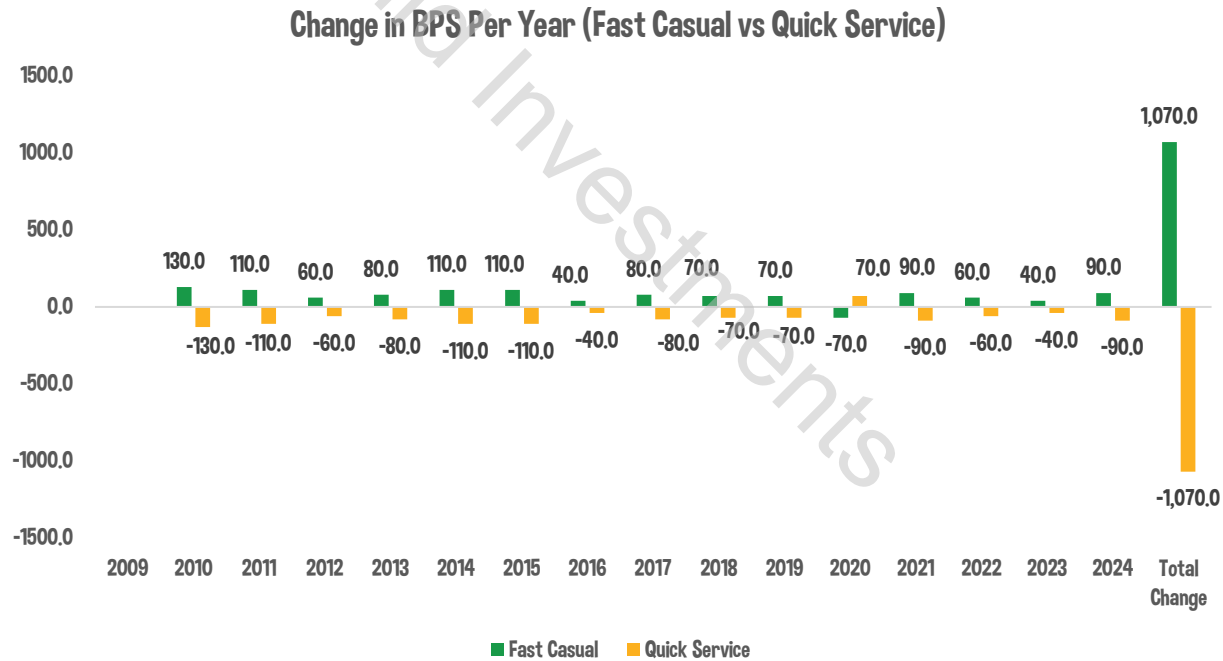

Although restaurant sales growth rate overall hasn't changed, the fast casual sector is growing as it continues to take share from the full service and QSR sectors.

Change in BPS (Limited Service vs Full Service)

FAST CASUAL SEGMENT

From 2009 through the end of 2024, the fast casual segment took 1070 basis points of limited-service share. Moreover, the fast casual segment grew at a 9.3% CAGR over this time period, while quick service only grew at a 2.7% CAGR

FAST CASUAL SEGMENT

The Company has several tailwinds, including, fast casual taking share from quick service, larger chains taking share from independents, and the growing consumer preference for brands that deliver culture and a laid-back atmosphere

FRANCHISOR OVERVIEW

CHEBA HUT FRANCHISE-25 YEARS AND ROLLING

Like many American dreams, Cheba Hut had a humble beginning. Scott Jennings graduated from college and decided to combine his 2 favorite things: food and marijuana. Opening his first location in his college town of Tempe, Arizona in 1998, his somewhat rebellious, themed sub sandwich shop quickly became a local favorite. Focusing on high quality ingredients, operating excellence and superior financial returns, Cheba Hut began to franchise locations across the country.

The rest is history. Well, history in the making...
