

American Housing Corp

Proposed \$50M SAFE financing - modular / row-home builder

As of 2026-05-31 | policy: standard | run 20260531_064608

VERDICT: DILIGENCE GAPS - DO NOT TREAT AS CLEAN

No claim was externally REFUTED. 1 internal inconsistency(ies) WITHIN the materials were flagged for reconciliation (not external refutations). 3 claims were CORROBORATED (the deal's Sydecar SPV conduits were located on EDGAR), but 21 of 24 dispatched verifications returned UNVERIFIABLE - the relevant public registries were unimplemented, unreachable, or did not return the expected field. Per the hostile-validator standard, UNVERIFIABLE is not a clean bill. Material gaps require management-provided primary documents before this raise can be cleared.

Deal context & coverage

Raise size	\$50,000,000 SAFE financing
Documents	5 (pitch deck, financial model, 2 executed SAFEs, SPV memo)
Claims extracted	262 (Mode A direct + Mode B implied-verification)
Externally checked	24 dispatched to an implemented connector (24% of claims have one)
Findings	1 material + 3 corroborated + 21 unverifiable

Executive summary

The company and its principals are REAL and externally corroborated: open-web discovery independently confirmed American Housing Corp as an Antler Spring-2025 portfolio company ("modular building system... 3x founder") and Fast Company confirms Riley Meik as cofounder/CEO. This is not a phantom issuer.

The raise STRUCTURE was independently corroborated. The Form D checks located the Sydecar series vehicles that fund this deal on SEC EDGAR - e.g. "American Housing Corp Jan 2025 a Series of CGF2021 LLC" (a Pooled Investment Fund administered by Sydecar). A single SPV's sold amount is a slice of the round, not the whole, so it reconciles as a subset of the headline raise rather than an exact match. 3 raise claim(s) reconcile this way.

What remains UNVERIFIABLE (21 of 24 dispatched) is the rest of the substance an investor underwrites: the state corporate-registry connector is not implemented (OpenCorporates), the operating company's OWN parent-entity Form D (distinct from the SPV conduits) was not located, and the city permit databases returned no rows for the claimed facilities. Loose EDGAR name-matching also returned unrelated pooled funds (an Antler Brasil vehicle, a Contrary Breakout fund) that the SPV-attribution logic now filters out rather than mistaking for AHC's own filing.

The factory/project claims could not be address-verified because the deal materials DISCLOSE NO STREET ADDRESS for the facilities - the deck names "Factory 1" / "Factory 2" with square-footage but no location. This is a primary-document gap, not a refutation: with no address to key on, the permit and OSHA checks have nothing to query.

Internal consistency: the \$15M and \$50M Flux SAFEs are two distinct financings (executed 2025-01-29 and 2025-11-13), now correctly separated by instrument date rather than mis-grouped as one self-contradictory valuation cap. 1 internal inconsistency(ies) remain for the deal team to reconcile against the source documents (see Material findings) - these are inconsistencies WITHIN the materials, not external refutations.

Primary-document follow-ups for the deal team: (1) operating-company state registration certificate + the parent entity's OWN Form D (we located the Sydecar SPV conduits, not the operating company's direct Reg-D filing); (2) a real factory/project street address - the deck discloses none - to key permit and OSHA verification; (3) executed SAFE documents to confirm the valuation caps on both rounds.

Material findings

The American Housing Corporation - milestone completed

[INTERNAL INCONSISTENCY]

R (claim): Demo home components manufactured - "2026 Q1 Demo home components manufactured"

f (test): consistency / existence check

M (authority): internal cross-document consistency check (no external authority)

Finding: The deal materials state conflicting values for the same fact (2 distinct values: ['Demo home assembled', 'Demo home components manufactured']). This is an internal inconsistency in the documents, not an external refutation - reconcile against the source documents.

Corroborated findings

Claims the framework independently CONFIRMED against an external authority. The cap-table structure was verified by locating the deal's SPV conduits on SEC EDGAR.

American Housing Corp - raise amount

[VERIFIED]

R (claim): 2000000 - "Deck claims \$2M seed round; Reg D 506 requires Form D filing within 15 days of first sale."

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/2059084/000205908425000001/primary_doc.xml]

Finding: Cap-table structure corroborated: 1 SPV conduit attributable to 'american housing' via Sydecar, totaling \$485,000 sold, consistent with (a subset of) the \$2,000,000 headline raise (76% of the round is direct or via other vehicles).

American Housing Corp - raise amount

[VERIFIED]

R (claim): 7000000 - "Deck claims \$7M Series A; Reg D 506 requires Form D filing within 15 days of first sale."

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/2059084/000205908425000001/primary_doc.xml]

Finding: Cap-table structure corroborated: 1 SPV conduit attributable to 'american housing' via Sydecar, totaling \$485,000 sold, consistent with (a subset of) the \$7,000,000 headline raise (93% of the round is direct or via other vehicles).

American Housing Corp - raise amount

[VERIFIED]

R (claim): 50000000 - "Deck claims raising \$50M current round; Form D should exist if direct SAFEs have been executed."

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/2059084/000205908425000001/primary_doc.xml]

Finding: Cap-table structure corroborated: 1 SPV conduit attributable to 'american housing' via Sydecar, totaling \$485,000 sold, consistent with (a subset of) the \$50,000,000 headline raise (99% of the round is direct or via other vehicles).

Unverifiable claims (not cleared)

Each item below is a claim the deck or model asserts that the framework attempted to verify against an independent authority but could not confirm or refute. Under the hostile-validator standard these are open risks, not passes.

American Housing Corp - registered as entity

[UNVERIFIABLE]

R (claim): Delaware - "Deck claims Delaware incorporation (Mode A); corporate registry should show active entity record."

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): no implemented external authority for this predicate

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: unreachable). Open risk - close with a primary document.

Contrary - led investment round

[UNVERIFIABLE]

R (claim): Series A - "Deck claims Contrary led \$7M Series A; Contrary should appear in Form D relatedPersons or public portfolio."

f (test): Named lead investor should appear in: issuer's Form D relatedPersons, publicly-listed portfolio of the lead, or own SAFE document. Total absence is SEVERE - the round may not have closed at the struc...

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/1836248/000183624820000001/primary_doc.xml]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

Contrary - led investment round

[UNVERIFIABLE]

R (claim): Current Round - "Deck claims Contrary leads current \$50M round; Contrary should appear in Form D or portfolio records."

f (test): Named lead investor should appear in: issuer's Form D relatedPersons, publicly-listed portfolio of the lead, or own SAFE document. Total absence is SEVERE - the round may not have closed at the struc...

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/1836248/000183624820000001/primary_doc.xml]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

Antler - led investment round

[UNVERIFIABLE]

R (claim): Seed - "Deck claims Antler invested in seed; Antler should appear in Form D or funding history."

f (test): Named lead investor should appear in: issuer's Form D relatedPersons, publicly-listed portfolio of the lead, or own SAFE document. Total absence is SEVERE - the round may not have closed at the struc...

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/1950907/000195090725000001/primary_doc.xml]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

Flux Capital - led investment round

[UNVERIFIABLE]

R (claim): Seed - "Deck claims Flux Capital invested in seed; should appear in Form D or funding records."

f (test): Named lead investor should appear in: issuer's Form D relatedPersons, publicly-listed portfolio of the lead, or own SAFE document. Total absence is SEVERE - the round may not have closed at the struc...

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/1737635/000137647418000103/primary_doc.xml]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

Flux Capital - led investment round

[UNVERIFIABLE]

R (claim): Series A - "Deck claims Flux Capital participated in Series A; should appear in Form D or funding records."

f (test): Named lead investor should appear in: issuer's Form D relatedPersons, publicly-listed portfolio of the lead, or own SAFE document. Total absence is SEVERE - the round may not have closed at the struc...

M (authority): SEC EDGAR Form D (Reg D) filings

[https://www.sec.gov/Archives/edgar/data/1737635/000137647418000103/primary_doc.xml]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

American Housing Corp - filed form d for direct safes

[UNVERIFIABLE]

R (claim): True - "Deck shows direct investor participation via SAFEs; parent-entity Form D should exist for Reg D compliance."

f (test): Reg D 506(b)(c) requires Form D within 15 days of first sale. If the issuer took direct SAFE checks (not via SPV), a parent-entity Form D should exist on EDGAR.

M (authority): SEC EDGAR Form D (Reg D) filings [<https://www.sec.gov/cgi-bin/browse-edgar>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: converged). Open risk - close with a primary document.

American Housing Corp - valuation cap

[UNVERIFIABLE]

R (claim): 15000000 - "Deck claims \$15M post-money cap for seed; executed SAFE documents should match this cap exactly."

f (test): Claimed valuation cap must match the cap actually written on the executed SAFE. CAUTION: SAFE caps are not market-validated priced valuations - they are forward-looking ceilings.

M (authority): SEC EDGAR Form D (Reg D) filings [<https://www.sec.gov/cgi-bin/browse-edgar>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: converged). Open risk - close with a primary document.

American Housing Corp - valuation cap

[UNVERIFIABLE]

R (claim): 50000000 - "Deck claims \$50M post-money cap for Series A; executed SAFE documents should match this cap exactly."

f (test): Claimed valuation cap must match the cap actually written on the executed SAFE. CAUTION: SAFE caps are not market-validated priced valuations - they are forward-looking ceilings.

M (authority): SEC EDGAR Form D (Reg D) filings [<https://www.sec.gov/cgi-bin/browse-edgar>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: converged). Open risk - close with a primary document.

American Housing Corp - legal status is clean

[UNVERIFIABLE]

R (claim): no undisclosed litigation - "As manufacturing startup raising capital, issuer should have clean litigation record; PACER/state court search warranted."

f (test): Sponsor (and affiliates) should have no undisclosed litigation in PACER or state courts

M (authority): sec_edgar

[<https://efits.sec.gov/LATEST/search-index?q=%22American%20Housing%20Corp%22&forms=D,ADV,10-K,S-1,8-K>]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: converged). Open risk - close with a primary document.

Factory 1 - operates industrial facility

[UNVERIFIABLE]

R (claim): 250000 sqft manufacturing - "Deck projects 1,750 units from 250k sqft Factory 1; building permits and OSHA establishment records should corroborate."

f (test): If sponsor claims a building/project in city X, the city's permit DB should have at least one matching permit. Zero hits across multiple name variants is a SEVERE absence-of-record signal.

M (authority): City of Austin building-permits open data [<https://bozeman.opengov.com/PORTAL/PROJECT/permitting>]

Finding: Not address-verifiable: the deal materials disclose NO street address for this facility (named only as e.g. "Factory 1" with square-footage). With no address to key on, the permit/OSHA check has nothing to query - a primary-document gap, not a refutation. Obtain the facility address and re-run.

Factory 2 - operates industrial facility

[UNVERIFIABLE]

R (claim): 1000000 sqft manufacturing - "Deck projects 17,500 units from 1M sqft Factory 2; building permits and OSHA establishment records should corroborate."

f (test): If sponsor claims a building/project in city X, the city's permit DB should have at least one matching permit. Zero hits across multiple name variants is a SEVERE absence-of-record signal.

M (authority): osha_establishment [<https://bozeman.opengov.com/PORTAL/PROJECT/permitting>]

Finding: Not address-verifiable: the deal materials disclose NO street address for this facility (named only as e.g. "Factory 1" with square-footage). With no address to key on, the permit/OSHA check has nothing to query - a primary-document gap, not a refutation. Obtain the facility address and re-run.

American Housing Corp - raise amount

[UNVERIFIABLE]

R (claim): 9000000 - "Deck shows cumulative \$9M raised; third-party funding databases (Signal, Crunchbase) should corroborate round history."

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR company submissions [<https://data.sec.gov/submissions/>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: exhausted). Open risk - close with a primary document.

American Housing Corp - legal status is clean

[UNVERIFIABLE]

R (claim): Riley Meik confirmed as CEO - "Deck identifies Riley Meik as CEO; Delaware corporate filings should list Meik as officer/director."

f (test): Sponsor (and affiliates) should have no undisclosed litigation in PACER or state courts

M (authority): no implemented external authority for this predicate

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: unreachable). Open risk - close with a primary document.

Flux Capital Fund Management LLC - registered as entity

[UNVERIFIABLE]

R (claim): LLC - "Deck shows Flux Capital Fund Management LLC as investor with manager Ari Stiegler; state corp registry should show active LLC."

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): tx_comptroller_corp

[<https://comptroller.texas.gov/data-search/franchise-tax?name=Flux+Capital+Fund+Management+LLC>]

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: exhausted). Open risk - close with a primary document.

American Housing Corporation - registered as entity

[UNVERIFIABLE]

R (claim): Delaware - "Resolved from parent claim iv_corp_registration_ahc ('American Housing Corp') via Stage 1.5; role=primary_entity; confidence=0.85"

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): no implemented external authority for this predicate

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: unreachable). Open risk - close with a primary document.

AMERICAN HOUSING CORPORATION - registered as entity

[UNVERIFIABLE]

R (claim): Delaware - "Resolved from parent claim iv_corp_registration_ahc ('American Housing Corp') via Stage 1.5; role=texas_registration; confidence=0.95"

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): no implemented external authority for this predicate

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: unreachable). Open risk - close with a primary document.

CGF2021 LLC - registered as entity

[UNVERIFIABLE]

R (claim): Series A - "Resolved from parent claim iv_contrary_led_series_a ('Contrary') via Stage 1.5; role=parent_spv_entity; confidence=0.8"

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): sec_edgar

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: converged). Open risk - close with a primary document.

American Housing November 2025 a Series of CGF2021 LLC (CIK 2099529) - raise amount

[UNVERIFIABLE]

R (claim): 15000000 - "Resolved from parent claim iv_valuation_cap_seed_safe ('American Housing Corp') via Stage 1.5; role=seed_round_filer; confidence=0.95"

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR Form D (Reg D) filings [<https://www.sec.gov/cgi-bin/browse-edgar>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: exhausted). Open risk - close with a primary document.

The American Housing Corporation - registered as entity

[UNVERIFIABLE]

R (claim): 50000000 - "Resolved from parent claim iv_valuation_cap_series_a_safe ('American Housing Corp') via Stage 1.5; role=primary_entity; confidence=0.7"

f (test): Claimed sponsor entity should appear in state corporate registry. Zero hits = SEVERE.

M (authority): no implemented external authority for this predicate

Finding: Could not confirm or refute (no implemented authority returned a usable result; stop: unreachable). Open risk - close with a primary document.

American Housing Corp Jan 2025 a Series of CGF2021 LLC (CIK 2059084) - raise amount

[UNVERIFIABLE]

R (claim): 9000000 - "Resolved from parent claim iv_funding_round_history_ahc ('American Housing Corp') via Stage 1.5; role=potential_spv_vehicle; confidence=0.4"

f (test): Sponsor's claimed raise amount should match the SEC Form D primary doc within 5%.

M (authority): SEC EDGAR Form D (Reg D) filings [<https://www.sec.gov/cgi-bin/browse-edgar>]

Finding: Could not confirm or refute (registry reached but the expected field was absent; stop: exhausted). Open risk - close with a primary document.

Methodology & limitations

Model. Every assertion in the deal materials is decomposed into an atomic claim R, matched to a verification rule f, and tested against an independent authority M. A finding records whether R was VERIFIED, REFUTED, or UNVERIFIABLE, with the authority cited as a URL. Two extraction modes run: Mode A (claims stated directly in the documents) and Mode B (implied verifications an investigator would derive - e.g. 'direct SAFE issuances imply a Form D should exist').

Coverage caveat. Only ~24% of the 262 extracted claims map to an implemented external connector today (24 were dispatched). A low REFUTED count therefore reflects verification REACH, not issuer honesty. UNVERIFIABLE never means clean.

SPV-conduit reconciliation. Venture rounds funded through Sydecap/AngelList-style series vehicles file their own Form Ds whose issuer name encodes the operating company ('<Co> <Month Year> a Series of <X> LLC'). A single conduit's sold amount is a slice of the round, so the framework reconciles attributable conduits as a SUBSET of the headline raise, and filters out pooled funds that merely name-collide (e.g. an unrelated Antler Brasil vehicle) rather than mistaking them for the issuer's filing.

Cross-claim consistency. A separate check groups claims by (subject, predicate, scope) and flags values that diverge WITHIN the deal materials. The scope key includes the instrument date, investor, round, and entity-resolution provenance (resolved_from), so two separately-dated financings - e.g. the 2025-01-29 \$15M SAFE vs the 2025-11-13 \$50M SAFE - sit in different buckets and are not mistaken for one self-contradictory valuation cap. A divergence here is an internal inconsistency in the documents, reported separately from external R/f(M) refutations.

Open-web discovery. The entity-resolution agent's web_search tool uses a full Chrome fingerprint (HTTP headers + a true TLS/HTTP-2 impersonation) and falls back across Brave -> DuckDuckGo -> Mojeek. Brave and DDG rate-limit this IP regardless of fingerprint; Mojeek carries the queries but indexes thinly, so it confirmed the company and founder but not a precise facility address.

This tearsheet is a research aid, not investment advice or a legal opinion. UNVERIFIABLE items must be closed with primary documents from management before reliance.
