Report of Independent Auditors

To the Board of Directors of The Children's Hospital of Philadelphia Foundation

Opinion

We have audited the accompanying consolidated financial statements of The Children's Hospital of Philadelphia Foundation and its Controlled Affiliates (the "Enterprise"), which comprise the consolidated balance sheets as of June 30, 2025 and 2024, and the related consolidated statements of operations, of changes in net assets and of cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Enterprise as of June 30, 2025 and 2024, and the results of its operations and changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Enterprise and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Enterprise's ability to continue as a going concern for one year after the date the consolidated financial statements are issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Enterprise's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Enterprise's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information

Supplemental Information (Consolidating Information)

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The accompanying consolidating information as of and for the years ended June 30, 2025 and 2024 (the "supplemental information") is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. The consolidating information is not intended to present, and we do not express an opinion on, the financial position, results of operations, changes in net assets, and cash flows of the individual companies. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The supplemental information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

Supplemental Information (Schedule of Expenditures of Federal and State Awards)

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, schedule of expenditures of New Jersey state financial assistance awards, and the supplemental statements of program expenditures and program revenues of City of Philadelphia awards for the year ended June 30, 2025 are presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, *State of New Jersey Single Audit Policy-Circular Letter 15-08-OMB*, and the *City of Philadelphia Subrecipient Audit Guide*, which incorporates guidance from the Uniform Guidance and are not a required part of the consolidated financial statements. As described in Note 1 to the schedule of expenditures of federal awards, the accompanying schedule of expenditures of federal awards, the unaudited schedule of expenditures of New Jersey state financial assistance awards, and the supplemental statements of program expenditures and program revenues of City of Philadelphia awards were prepared on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The schedule of expenditures of federal awards and the supplemental statements of program expenditures and program revenues of City of Philadelphia awards have been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the supplemental statements of program expenditures and program revenues of City of Philadelphia awards are fairly stated, in all material respects, on the basis of accounting described in Note 1, in relation to the consolidated financial statements taken as a whole.

The Schedule of Expenditures of New Jersey State Financial Assistance Awards for the year ended June 30, 2025, on page 47 has not been subjected to auditing procedures applied in the audit of the consolidated financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 19, 2025 on our consideration of the Enterprise's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters for the year ended June 30, 2025. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Enterprise's internal control over financial reporting and compliance.

Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

1. Organization and Summary of Significant Accounting Policies

The Children's Hospital of Philadelphia Foundation (the "Foundation") and The Children's Hospital of Philadelphia ("CHOP") are Pennsylvania nonprofit tax-exempt corporations. The Foundation is the parent corporation of CHOP and raises charitable contributions to support the tax-exempt activities of CHOP. In July 2002, the Foundation and CHOP formed an "Obligated Group" with J.P. Morgan Trust Company as Trustee. Also included in the operating results of the Obligated Group are the following entities: CHOP Clinical Associates, Inc. ("Clinical Associates"), The Children's Hospital of Philadelphia Practice Association ("CHOPPA"), First Medical Insurance Company ("RRG"), Bache Lewis and Penrose LLC, 4865 Market Street Associates LP and 1700 Broad Street Inc.

CHOP was founded in 1855 and is the nation's first hospital dedicated exclusively to pediatrics. The hospital strives to be the world leader in the advancement of health care for children by integrating excellent patient care, innovative research and quality professional education into all its programs. CHOP is an integrated pediatric health care delivery system that provides quaternary and acute level pediatric services as well as emergency, primary, specialty, homecare and poison control care for children. CHOP has fostered some of the nation's pioneers in pediatric medicine and continues to be the premier training ground for future pediatric leaders. Its educational program includes one of the largest pediatric residency programs in the country. The hospital is also committed to researching and finding cures for chronic and fatal pediatric illnesses through its extensive research program.

CHOP is the controlling corporation of Children's Anesthesiology Associates, Ltd., Children's Health Care Associates, Inc., Children's Surgical Associates, Ltd., and Radiology Associates of Children's Hospital, Inc. (collectively, together with their New Jersey counterparts and their affiliates, the "Practice Plans"). The Practice Plans represent the physician service departments at CHOP in anesthesiology and critical care medicine, pediatrics, surgery and radiology, respectively. They provide and bill for medical professional clinical services performed at CHOP or in connection with CHOP programs, provide teaching services at CHOP and at the University of Pennsylvania School of Medicine, and engage in research activities at CHOP. The Practice Plans are not part of the Obligated Group and have no obligation with respect to the Obligated Group debt.

Clinical Associates is a New Jersey nonprofit corporation engaged in the practice of medicine in New Jersey exclusively for charitable, educational and scientific purposes by providing medical and closely allied professional services to the public, engaging in medical education and working to improve the welfare of children, all in support of CHOP. The sole member of Clinical Associates is a member of the medical staff of CHOP, who is licensed to practice medicine in New Jersey. Therefore, this entity is consolidated under CHOP. Through an operating agreement between CHOP and Clinical Associates, CHOP provides funding for Clinical Associates' activities. In addition, through a services agreement, CHOP provides management services including billing for Clinical Associates' revenues and payment of all operating expenses. Reimbursement for management services is paid from Clinical Associates practice revenues.

CHOPPA was formed for the purposes of (a) billing for behavioral health services and (b) developing, supporting, and operating a University-affiliated, multi-disciplinary, academic pediatric group practice whose activities include (but are not limited to) the provision of clinical and clinical support services, the promotion of teaching, undergraduate, and post-graduate medical education, and research. CHOP is the sole member of CHOPPA.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

RRG is a wholly owned risk retention group domiciled in Vermont and owned principally by CHOP with other tax-exempt CHOP affiliates owning the remaining interests.

Bache Lewis and Penrose LLC is a wholly owned holding company that holds assets to cover professional liability and workers compensation.

1700 Broad Street Inc. is a Pennsylvania non-profit corporation related to a project between the City of Philadelphia and CHOP to create and operate a new South Philadelphia Family Care Center. CHOP is the sole member of the entity. The center includes a CHOP primary care practice, a city health center, a branch of the Free Library, and a recreational facility with a playground.

CHOP is the controlling corporation of PGH Development Corporation ("PGHDC"). PGHDC results are included in the consolidated financial statements. PGHDC is not part of the Obligated Group and has no obligation with respect to the Obligated Group debt.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates are comprised of the Obligated Group, Practice Plans and PGHDC, which constitute the "Enterprise."

A summary of significant accounting policies observed by the Children's Hospital of Philadelphia Foundation and Controlled Affiliates is as follows:

Principles of Consolidation

The accompanying consolidated financial statements of the Enterprise include the accounts of the Foundation, CHOP, Clinical Associates, CHOPPA, RRG, Bache Lewis and Penrose, LLC, 4865 Market Street Associates LP, 1700 Broad Street Inc., PGHDC and the Practice Plans. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All inter-company transactions and accounts have been eliminated.

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Financial Statement Presentation

The Enterprise has changed its basis of presentation for the accompanying financial statements to present all amounts in thousands of U.S. dollars. This change has been made to improve the readability and understandability of the financial statements. All prior period amounts have been reclassified to conform to the current year's presentation.

The Enterprise has reported information regarding its financial position and operations according to its two classes of net assets: net assets without donor restriction and net assets with donor restriction.

Contributions received are recorded as with or without donor restriction, depending on the existence and/or nature of any donor restrictions. Net assets with donor restriction have been restricted by donors to a specific time period or purpose or have been restricted by donors to be maintained by the Enterprise in perpetuity. Net assets without donor restriction are those whose use has not been limited by a donor to a specific period of time or purpose or are donor-restricted contributions whose restrictions have been met within the same reporting period.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Excess of Revenues over Expenses

The consolidated statements of operations include excess of revenues over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenues over expenses, consistent with industry practice, include net assets released from restrictions for capital, external funding for capital, pension adjustments, transfers to / from net assets with donor restriction.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant estimates relate to uncollectible accounts, contractual allowances, alternative investments and self-insurance reserves.

Cash and Cash Equivalents

Cash includes cash amounts in non-interest-bearing and interest-bearing accounts. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held for the purpose of meeting short-term liquidity requirements, rather than for investment purposes. Cash and cash equivalents are held at major financial institutions.

At June 30, 2025 and 2024, the Enterprise has cash in major financial institutions which exceed Federal Depository Insurance limits. These financial institutions have strong credit ratings and management believes that credit risk related to these deposits is minimal.

The following table provides a reconciliation of cash and restricted cash reported with the balance sheet that sums to amounts shown in the statement of cash flows.

	<u>2025</u>	<u>2024</u>
Cash and cash equivalents	\$288,523	\$339,895
Cash and restricted cash included in other investments	756,168	492,266
	<u>\$1,044,691</u>	<u>\$832,161</u>

On June 30, 2025, amounts included in cash and restricted cash represent \$288,523 of operating cash, \$755,528 in our investment portfolio, \$33 in funds limited to use for emergency construction costs for PGHDC and \$607 in funds restricted for the payment of capital invoices for PGHDC. On June 30, 2024, amounts included in cash and restricted cash represent \$339,895 of operating cash, \$492,013 in our investment portfolio, \$33 in funds limited to use for emergency construction costs for PGHDC and \$220 in funds restricted for the payment of capital invoices for PGHDC.

Supplies, Drugs and Prepaid Expenses

Supplies and drugs on the balance sheet are generally stated at the lower of average cost or market value and valued at \$43,563 and \$46,304 on June 30, 2025, and 2024, respectively. Prepaid expenses are valued on the balance sheet on June 30, 2025, and 2024 at \$74,240 and \$59,900.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Assets Limited as to Use and Investments

Assets limited as to use include assets held by trustees under indenture agreements, and self-insurance agreements and designated assets set aside by the Board of Trustees (the "Board") for future capital improvements as well as research and clinical investments, over which the Board retains control and may at its discretion subsequently use for other purposes, and assets which have been set aside to meet restrictions by the donors. Amounts required to meet certain current liabilities of the Enterprise have been classified as current assets in the balance sheet at June 30, 2025 and 2024. The current portion of assets limited as to use is primarily for unfunded liabilities related to self-insurance.

Non-alternative investments and assets limited as to use are stated at fair value. The fair value of all debt and equity securities with a readily determinable fair value is based on quotations obtained from national securities exchanges. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in excess of revenues over expenses. The Enterprise recognized an investment return, net of \$458,543 and \$365,745, for the years ended June 30, 2025 and 2024, respectively.

Alternative Investments are invested through private partnerships and primarily include private equity investments, real assets and hedge funds. These investments, with the exception of certain real assets in exchange traded funds, are not readily marketable, and are recorded at fair value using net asset value ("NAV") as a practical expedient with the exception of other investments recorded using the equity method of accounting. The gains and losses on these investments are included in the excess of revenues over expenses. The Enterprise reviews and evaluates the values provided by the investment managers and agrees with the valuation methods and assumptions used in determining the value of the alternative investments. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. As of June 30, 2025 and 2024, the Enterprise had unfunded commitments relating to these alternative investments of \$652,313 and \$657,722 respectively.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risks associated with certain investment securities, it is reasonably possible that changes in the value of investments could occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets.

Accounts Receivable

Accounts receivable consists primarily of amounts owed by various governmental agencies, insurance companies, patients, donors and third parties. These are represented on the balance sheet as receivables for patient services, pledge receivables, due from third party and other receivables. The Enterprise manages these receivables by regularly reviewing the accounts and contracts and by recording appropriate price concessions, discount rates and reserves. Management relies on the results of detailed reviews of historical write-offs, collections, current trends, new contract language and new service lines as the primary sources of information in estimating the collectability of the accounts receivables. The patient services receivables estimates for implicit price concessions are based upon management's assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. The Enterprise performs an analysis utilizing historical accounts receivable collection and write-off data. The Enterprise believes its quarterly updates to the estimated implicit price concession amounts at each of its

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

hospital facilities provide reasonable valuation estimates of the Enterprise's revenues and accounts receivable.

Land, Buildings and Equipment

Land, buildings and equipment are recorded at cost for purchased items and at fair value for contributed items. Major renewals and improvements are capitalized while maintenance repairs are expensed when incurred. Depreciation is recognized over the estimated useful life of each class of depreciable asset and is computed using the straight-line method.

Other Long Term Assets and Receivables

Other long term assets and receivables include, but are not limited to, an estimated amount related to the Medical Care Availability and Reduction of Error Fund ("MCARE") recoveries. The MCARE recovery has an offsetting liability in Other Liabilities.

Accounting for Long-Lived Assets

The Enterprise assesses its assets for impairment whenever events or changes in circumstances indicate that the carrying amount of a respective asset that the Enterprise expects to hold and use may not be recoverable. In addition, the Enterprise periodically assesses the estimated useful lives as appropriate.

Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses include, but are not limited to, trade accounts payables, accrued wages and related state and federal income taxes payable, accrued paid personal leave for employees and accrued employee healthcare related expenses.

Other Liabilities

Other liabilities include, but are not limited to, deferred revenue related to research activities, reserves for unfunded liabilities, reserves for MCARE liabilities, deferred employee compensation, fair value of derivative financial instruments and other deferred liabilities.

Patient Service Revenue

Patient Service revenues are reported at the amount that reflects the consideration to which the Enterprise expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs) and others. Generally, the Enterprise bills the patient and third-party payors several days after the services are performed and/or the patient is discharged from the facility. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Enterprise. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected or actual charges. The Enterprise believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in our hospitals receiving inpatient acute care services. The Enterprise measures the performance obligation from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided, and the Enterprise does not believe it is required to provide additional goods or services to the patient.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Because substantially all of its performance obligations relate to contracts with a duration of less than one year, the Enterprise has elected to apply the practical expedient provided in FASB ASC 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amounts of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. These performance obligations are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Enterprise determines its transaction price by assessing the estimates of contractual adjustments and discounts based on contractual agreements, its discount policies, and historical experience. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals. Estimates of contractual adjustments under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. The payment arrangements with third-party payers provide for payments to the Enterprise at amounts different from its established rates. Amounts the Enterprise receives for treatment of patients covered by governmental programs and third-party payors as well as directly from patients are subject to both explicit and implicit price concessions. The Enterprise estimates these price concessions using contractual agreements, discount policies, and historical experience. The Enterprise records price concessions in the period of service based on the analysis and consideration of these factors.

Patient service revenue, net of explicit and implicit price concessions, recognized in the period from these major payor sources, is as follows:

	2025			
	Inpatient	Outpatient	Professional Fees	Total
Blue Cross/Blue Shield	\$574,631	\$597,504	\$541,312	\$1,713,447

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Generally, patients who are covered by third-party payers are responsible for related deductibles and coinsurance, which vary in amount. The Enterprise also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. The Enterprise estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions. The Enterprise has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Enterprise's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payor pays for that service will be one year or less. Estimated implicit price concessions are recorded for all uninsured accounts, which includes uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage, regardless of the aging of those accounts. An increase in the level of uninsured patients to the Enterprise could have an unfavorable impact on the Enterprise's future operating results.

Charity Care

CHOP and Practice Plans provide care to patients who meet certain criteria under charity care policies without charge or at amounts less than their established charges. Because CHOP and Practice Plans do not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The estimated cost of providing the charity services was \$12,927 and \$12,731 in 2025 and 2024, respectively. The estimated costs were based on a calculation which multiplied the percentage of operating expenses for the hospital to gross charity care charges. The percentage of cost to gross charges is calculated based on the total operating expenses for the hospital divided by gross patient service revenue for those facilities. An increase in the level of uninsured patients to our facilities and the resulting adverse trends in the provision for doubtful accounts and charity care provided could have a material unfavorable impact on our future operating results.

Research Revenue

CHOP receives grant and contract revenue from governmental and private sources. In 2025 and 2024, grant and contract revenue, which comprises a portion of total research revenues, totaled \$378,177 and \$368,775, respectively. CHOP recognizes revenue associated with the direct and the applicable indirect costs of federally sponsored programs as the related costs are incurred. For the majority of its grants, CHOP has determined that there is no exchange back to the granting authority. Therefore, CHOP accounts for these grants under the contribution model, which is outside the scope of ASC 606 and revenue is recognized as conditions are met. CHOP negotiates its federal indirect rate with its cognizant federal agency. Indirect costs recovered on federally sponsored programs are generally based on predetermined reimbursement rates which are stated as a percentage and distributed based on the modified total direct costs incurred. Indirect costs recovered on all other grants and contracts are based on rates negotiated with the respective sponsors. CHOP receives contributions in the form of conditional government grants. The grants are carried out for research activities that benefit the general public and not for the government's own use. The grants are considered conditional due to the need to first spend the awarded funds on qualifying expenses and a right of return exists for unexpended funds. The grants are reimbursed after the expenses have been incurred. CHOP has conditional contributions for which the conditions have not been met of \$181,056 and \$193,447 at June 30, 2025 and 2024, respectively.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Other Operating Revenue

Other operating revenue and gains consists of contributions released from restriction, specialty pharmacy revenue and other miscellaneous operating revenue. Other miscellaneous operating revenues are accounted for under ASC 606. CHOP has conditional contributions related to special purpose funds for which the conditions have not been met of \$74,313 and \$69,686 at June 30, 2025 and 2024, respectively. CHOP accounts for special purpose funds under the contribution model, which is outside the scope of ASC 606 and revenue is recognized as conditions are met.

Income Taxes

The Foundation, CHOP, Practice Plans and other corporations included in the consolidated financial statements (other than Bache Lewis and Penrose LLC) are corporations that are recognized as exempt from federal income tax pursuant to Section 501(c)(3) of the Internal Revenue Code ("IRC"). The Bache Lewis and Penrose LLC is a disregarded entity and included in CHOP's tax filings.

Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available.

Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy based on three levels of input, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Enterprise for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the same term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The carrying amounts reported on the consolidated balance sheets for cash, accounts receivable, accounts payable and accrued expenses approximates their fair value. The fair value of assets limited as to use and investments are included in Notes 4 and 5, respectively.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements

(in thousands of dollars)

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses – requiring earlier recognition of credit losses on financing receivables and other financial assets. It introduces the current expected credit loss (CECL) methodology for estimating allowances for credit losses. Contributions receivable and investments reported at fair value are not subject to the CECL guidelines. ASU 2016-13 is effective for fiscal years beginning after December 15, 2022. The adoption did not have a material impact to the consolidated financial statements disclosures beginning in fiscal year 2024.

2. Net Assets

Net assets with donor restriction have restrictions based on the following: 1) restricted as to use by the Enterprise to a specific time period or purpose as directed by the donor or 2) the original value of gifts donated to the Enterprise through a permanent endowment, 3) the original value of subsequent gifts to the Enterprise through a permanent endowment, or 4) accumulations to the permanent endowment in accordance with applicable donor gift instruments.

The Enterprise follows the Pennsylvania Uniform Principal and Income Act ("Pennsylvania Act") to govern the investment, use and management of the endowment funds. The Pennsylvania Act allows a non-profit to elect to spend between 2% and 7% of the endowment market value, determined at least annually and averaged over a period of three or more preceding years. The Children's Hospital of Philadelphia board has elected a 5% spending rule.

The Enterprise considers the following factors in determining if donor-restricted endowment funds are accumulated or appropriated:

- 1) the duration and preservation of the fund
- 2) the purposes of the Enterprise's donor-restricted endowment funds
- 3) general economic conditions
- 4) effect of possible inflation or deflation
- 5) the expected total investment return and appreciation of investments
- 6) other resources of the Enterprise
- 7) investment policies of the Enterprise

The Enterprise's net assets with donor restriction consist of individual endowment and contribution accounts. Unless otherwise directed by the donor, gifts received for endowments are invested in accordance with the Enterprise's investment policy. Unless otherwise directed by the donor, the Enterprise annually appropriates a certain percentage of each endowment fund, which is then available for spending in accordance with the donor's intent. In order to preserve the real value of a donor's gift and to sustain funding consistent with donor intent, the annual appropriation rate is set to strike a reasonable balance between long-term objectives of preserving and growing each endowment fund for the future and providing stable, annual appropriations.

There are no donor restricted endowment funds where the market value is less than the historic gift amount ("underwater").

3. Pledges Receivable

Pledges receivable consists of private gifts and grants promised from individuals, corporations, foundations or other organizations.

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Restricted promises are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets to a specific time period or purpose. The Enterprise is using an average discount rate of 3.56% and 3.58% for all pledge receivables in year ending June 30, 2025, and 2024, respectively.

Pledges receivable are expected to be realized in the following periods:

	2025	2024
Less than one year	\$37,670	\$25,927
One to five years	120,566	54,001
Thereafter	<u>39,500</u>	<u>28,500</u>

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Level 3 investments are largely commingled investment funds utilizing total market value for pricing. For level 3 investments with no observable inputs, reasonable attempts are made to obtain a price from an independent source. Real estate holdings are priced on relevant business days with an evaluation price based on the total value of the security for the share of the holdings. Net asset value investments relating to private equity, real estate and hedge funds are recorded at net asset value ("NAV") with the exception of some other investments recorded using the equity method of accounting and are not required to be included as Level 1, 2 or 3.

The following table displays information by asset class for assets limited to use that are measured using NAV as a practical expedient as of June 30, 2025:

	Fair Value	Redemption Frequency	Redemption Notice Period	Unfunded Commitments
Equity Funds	\$120	Monthly / Quarterly	20-90 days	\$2,410
Hedge Funds	478,913	Monthly / Quarterly	20-90 days	3,541
Real Estate	150,276	N/A	Over 12 months	167,505
Venture Capital, Private Equity and Other	<u>1,583,665</u>	N/A	Over 12 months	<u>478,857</u>
	\$2,212,974			\$652,313

The following table displays information by asset class for assets limited to use that are measured using NAV as a practical expedient as of June 30, 2024:

	Fair Value	Redemption Frequency	Redemption Notice Period	Unfunded Commitments
Equity Funds	\$98	Monthly / Quarterly	20-90 days	\$10,806
Hedge Funds	471,147	Monthly / Quarterly	20-90 days	3,653
Real Estate	134,776	N/A	Over 12 months	156,347
Venture Capital, Private Equity and Other	<u>1,321,110</u>	N/A	Over 12 months	<u>486,916</u>
	\$1,927,131			\$657,722

Equity Funds: Commingled equity funds with a focus on energy and hard assets. Strategies involve Exchange Traded Funds that invest in both publicly traded companies as well as emerging markets.

Hedge Funds: Consists of private equity hedge funds. Strategies can be broadly diversified or narrowly focused and can range in terms of levels of net exposure.

Real Estate: Private equity partnerships with investments in real estate properties. Strategies focus in the United States but can cross geographic.

Venture Capital and Private Equity: Investments in private equity partnerships. Strategies can be broadly diversified or narrowly focused and can range in terms of levels of net exposure.

	\$282,992	\$5,982	\$ 63	\$(652)	\$1,342	\$289,727

Included in the Enterprise's Level 3 financial instruments are funds held in trust by others in perpetuity for the benefit of the Enterprise. These funds, which are restricted by donors, have been recorded in net assets with donor restriction at fair market value at \$30,032 at June 30, 2025 and \$28,380 at June 30, 2024.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

5. Land, Buildings and Equipment

Land, buildings and equipment and accumulated depreciation consist of the following at June 30:

	2025	2024
Assets		
Land	\$128,443	\$129,099
Land improvements	5,223	4,937
Buildings and building improvements	4,099,279	4,041,744
Fixed equipment	746,705	747,903
Major movable equipment	1,709,728	1,635,239
Construction in progress	1,106,304	695,961
	<u>7,795,682</u>	<u>7,254,883</u>
Accumulated depreciation		
Land improvements	(3,483)	(3,376)
Buildings and building improvements	(1,611,831)	(1,430,971)
Fixed equipment	(661,170)	(639,438)
Major movable equipment	(1,362,612)	(1,263,497)
	<u>(3,639,096)</u>	<u>(3,337,282)</u>
	<u>\$4,156,586</u>	<u>\$3,917,601</u>

The Enterprise capitalized \$30,586 and \$19,931 of interest expense during the years ended June 30, 2025 and 2024, respectively.

A component in the change year over year included in property, plant and equipment, net is change in non-cash additions of \$(1,346) and \$(5,146) for the years ended June 30, 2025 and 2024, respectively. The change in non-cash additions have been excluded from operating and investing activities in the statement of cash flow.

For financial reporting purposes, the Enterprise uses straight-line depreciation over the assets' estimated lives, which are as follows:

Land improvements	10-20 years
Buildings and building improvements	10-40 years
Fixed equipment	5-20 years
Major movable equipment	3-20 years

Construction-in-progress at June 30, 2025 relates to expansion projects at CHOP and information systems projects. The total estimated costs to complete the projects in construction-in-progress are approximately \$1,888,758.

6. Leases

The Enterprise has operating leases related to real estate lease agreements for office space and clinical sites. At June 30, 2025 and 2024, the Enterprise has lease ROU assets of \$144,314 and \$158,268 as well as lease liability of \$144,314 and \$158,268 reflected on the balance sheet which has a discount rate of 3.574% and 3.222% applied based on the Enterprise's incremental borrowing rate. The Enterprise election excludes non-lease components for real estate contracts, such as common area maintenance, in determining the ROU assets.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

	<u>2025</u>	<u>2024</u>
Weighted average remaining lease term:		
Operating leases	9.66 years	10.42 years
Weighted average discount rate:		
Operating leases	3.574%	3.222%

The Enterprise is also a lessor of real estate under operating leases. Lease income for the year ended June 30, 2025 and 2024, were \$1,911 and \$1,378 respectively, which is included in other operating revenue in the Consolidated Statements of Operations and Changes in Net Assets. Variable lease income included in the rent charges for maintenance costs is not material.

The Enterprise leases various facilities under operating leases expiring at various dates through 2027. Certain Practice Plans have office equipment under operating leases. Total rental expense in 2025 and 2024 for all operating leases was approximately \$29,749 and \$30,693, respectively, included in purchased services in the consolidated statement of operations.

The following is a schedule by year of future minimum lease payments under operating leases as of June 30, 2025, that have initial or remaining lease terms in excess of one year:

2026	\$21,523
2027	17,968
2028	16,452
2029	16,985
2030	16,673
Thereafter	<u>85,518</u>
Total lease payments	\$175,119
Less: Present value discount	<u>(30,805)</u>
Total lease payments	144,314
Less: Current obligations	<u>(20,781)</u>
Long-term lease obligations	<u>\$123,533</u>

Real estate leases may include options to renew that can extend the lease terms for an additional one to ten years. Some leases include the options to terminate the lease early in line with the agreed upon contract terms. One lease includes an option for the right to purchase the premises from the landlord with a closing to occur May 2034, the expiration of the 156th month following the commencement date of April 2021. The Enterprise recognizes these options as part of its ROU assets and lease liabilities to the extent that they are reasonably certain to be exercised.

Supplemental cash flow information related to leases for the period ended June 30 are as follows:

	<u>2025</u>	<u>2024</u>
Cash paid for amounts included in the measurement of lease liabilities – operating cash flows from operating leases:	\$42,138	\$28,575
Non-cash activity for the additions to the right of use assets obtained from operating leases:	\$ 786	\$ 5,644

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

7. Long-Term Debt

Long-term debt consists of the following at June 30:

Bond	Fixed or Variable	Interest Payable	Effective Interest Rate	Maturity Date	Footnote	2025	2024
2017 Bonds	Fixed	Semi-annually	4.42%	7/1/2037	(a)	170,055	171,360
2020 Bonds	Fixed	Semi-annually	2.70%	7/1/2050	(b)	500,000	500,000
2021A Bonds	Fixed	Semi-annually	5.00%	7/1/2032	(c)	124,015	124,015
2021B Bonds	Variable	Monthly	3.04%	7/1/2041	(d)	176,725	199,050
2022 Bonds	Fixed	Semi-annually	2.74%	7/1/2044	(e)	201,580	201,580
2024 Bonds	Fixed	Semi-annually	3.39%	7/1/2053	(f)	550,000	-
2024 B-1 Bonds	Variable	Monthly	1.94%	7/1/2054	(g)	100,000	-
2024 B-2 Bonds	Variable	Monthly	1.94%	7/1/2054	(h)	100,000	-
PIDC Loan	Fixed	Monthly	3.00%	5/1/2031	(i)	2,425	2,794
Line of Credit	Fixed	Monthly	3.25%	1/1/2026	(j)	50,000	500,000
						1,974,800	1,698,799
Less: Current Portion						(69,365)	(523,999)
						1,905,435	1,174,800
Unamortized bond related liabilities						74,441	43,264
Total Long-Term Debt						\$1,979,876	\$1,218,064

Principal repayments as of June 30, 2025 on the debt are due as follows:

2026	\$ 69,365
2027	20,297
2028	21,309
2029	22,406
2030	23,249
Thereafter	1,818,174
	\$1,974,800

- a. During June 2017, the Enterprise borrowed \$179,080 under a Loan Agreement from the sale of tax-exempt Hospital Revenue Bonds (The Children's Hospital of Philadelphia Project) Series 2017, (Series 2017 Bonds) issued by the Philadelphia Authority for Industrial Development. The bonds were sold at a premium resulting in \$198,214 in proceeds. The net proceeds were paid to the Bond Trustee on behalf of CHOP and applied, together with other available funds of CHOP, to finance the costs of a project consisting of: (i) the current refunding of all of the outstanding Series A of 2007 Bonds and (ii) payment of bond issuance expenses and related costs and expenses.
- b. During October 2020, the Enterprise borrowed \$500,000 under a Loan Agreement from the Children's Hospital of Philadelphia Taxable Bonds, Series 2020, (Series 2020 Bonds) issued

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

by the Bank of New York Mellon Trust Company, N.A. The proceeds of the Bonds will be used (i) for general corporate purposes of CHOP, including acquisition and construction of capital projects, and (ii) to pay a portion of the costs of issuance of the Bonds.

- c. In July 2021, the Enterprise borrowed \$124,015 under a Loan Agreement from the sale of tax-exempt Hospital Revenue Bonds (The Children's Hospital of Philadelphia Project) Series A of 2021, (Series 2021A Bonds) issued by the Philadelphia Authority for Industrial Development. The bonds were sold at a premium resulting in \$164,523 in proceeds which included \$2,646 from the terminated 2021D Swap.
- d. In July 2021, the Enterprise borrowed \$241,485 under a Loan Agreement from the sale of tax-exempt Hospital Revenue Bonds (The Children's Hospital of Philadelphia Project) Series B of 2021, (Series 2021B Bonds) issued by the Philadelphia Authority for Industrial Development. The net proceeds received by the Authority from the sale of the Series 2021A&B Bonds, were applied to finance the costs of a project consisting of: (a) refunding of (i) the Authority's 2002 A&B Bonds; (ii) the Authority's 2011 A&B Bonds; and (iii) the Authority's Series 2011C Bonds; and (b) paying the issuance costs of 2021 A&B Bonds.
- e. In May 2022, the Enterprise borrowed \$201,580 under a Loan Agreement from the sale of taxable Hospital Revenue Bonds (The Children's Hospital of Philadelphia Project) Series of 2022, issued by the Philadelphia Authority for Industrial Development. The net proceeds were paid to the Bond Trustee on behalf of CHOP and applied, together with other available funds of CHOP, to finance the costs of a project consisting of: (i) the advance refunding of the outstanding Series 2014 Bonds and (ii) payment of bond issuance expenses and related costs and expenses.
- f. During October 2024, the Enterprise borrowed \$550,000 under a Loan Agreement from the Children's Hospital of Philadelphia Project Hospital Revenue Bonds, Series A of 2024, (Series 2024A Bonds) issued by the Philadelphia Authority of Industrial Development and The Bank of New York Mellon Trust Company, N.A., as bond trustee. The net proceeds will be used to finance the costs of a project consisting of: (i) the reimbursement and financing of the construction, acquisition, renovation and installation of capital improvements and the acquisition and installation of equipment in facilities, including, without limitation, in connection with the construction of the New Patient Tower and (ii) paying the issuance costs of the 2024A Bonds.
- g. During October 2024, the Enterprise borrowed \$100,000 under a Loan Agreement from the Children's Hospital of Philadelphia Project Hospital Revenue Bonds, Series B-1 of 2024 issued by the Philadelphia Authority of Industrial Development. The net proceeds will be used to finance the costs of a project consisting of: (i) the reimbursement and financing of the construction, acquisition, renovation and installation of capital improvements and the acquisition and installation of equipment in facilities, including, without limitation, in connection with the construction of the New Patient Tower and the Morgan Center for Research & Innovation and (ii) paying the issuance costs associated with the bonds.
- h. During October 2024, the Enterprise borrowed \$100,000 under a Loan Agreement from the Children's Hospital of Philadelphia Project Hospital Revenue Bonds, Series B-2 of 2024 issued by the Philadelphia Authority of Industrial Development. The net proceeds will be used to finance the costs of a project consisting of: (i) the reimbursement and financing of the construction, acquisition, renovation and installation of capital improvements and the acquisition and installation of equipment in facilities, including, without limitation, in connection

The Children’s Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

with the construction of the New Patient Tower and the Morgan Center for Research & Innovation and (ii) paying the issuance costs associated with the bonds.

- i. The Enterprise also entered into a loan with Philadelphia Industrial Development Corporation (“PIDC”) in the original principal amount of \$8,279.
- j. On December 20, 2022, the Enterprise entered a revolving credit arrangement with Truist Bank. The agreement outlines the commitment of Truist Bank to make loans in an aggregate principal at any one time outstanding not to exceed \$350,000 with a commitment termination date of December 19, 2024. On April 25, 2024, the Enterprise agreed to an amendment to the original agreement with Truist where Truist revised the commitment to \$500,000 through December 31, 2024, and \$350,000 from and after January 1, 2025 through the revised committed termination date of April 17, 2025. On November 14, 2024, a second amendment to agreement which increased the commitment to \$400,000 from January 1, 2025 through the committed termination date of January 1, 2026.

The bond indentures require the Obligated Group to comply with certain covenants, including maintenance of a minimum debt service coverage ratio. As of June 30, 2025, and 2024, the Obligated Group was in compliance with these bond covenants.

Commercial Paper

As of June 30, 2025, CHOP maintained a commercial paper program with a total authorized capacity of \$600,000. No commercial paper was outstanding under the program as of June 30, 2025. CHOP uses the program as a source of short-term funding and may issue commercial paper from time to time depending on market conditions and financing needs.

Derivative Financial Instruments

In March of 2020, the Enterprise entered into two forward starting fixed rate swaps, each with an effective date of July 01, 2021. The swaps were entered into for the purpose of fixing interest rates on variable rate bonds, thus reducing exposures to interest rate fluctuations. The amount exchanged is based on the notional amount whereby the Enterprise pays the counterparty interest at a fixed rate and the counterparty pays the Enterprise at a variable rate based on the weekly SIFMA Swap Index. The first swap, Series D (the “2021D Swap”) had a notional amount of \$165,670 set to expire on July 01, 2032 but was terminated on June 17, 2021. The second swap, 2021 C Swap, has a notional amount of \$76,370 and expires on July 01, 2041. As of June 30, 2025, the fair market value of the 2021C Swap was approximately \$11,701. The Enterprise has accounted for these swaps as a cash flow hedge with the change in valuation being accounted for as a component of the changes in net assets without donor restrictions.

The notional amounts and fair values, based on quoted market prices, of the Enterprise’s derivative financial instruments are as follows at June 30:

	Notional	Balance Sheet		Statement of Operations	
Interest Rate Swap	2025	2025	2024	2025	2024
2021C Swap	\$69,105	\$11,701	\$12,867	\$ 1,166	\$651

Under these agreements, net interest expense of \$(1,607) and \$(1,991) relating to the derivative financial instruments was incurred for the years ended June 30, 2025 and 2024 respectively.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

Interest rate swaps have been classified in Level 2 of the fair value hierarchy. For the over-the-counter derivatives that trade in liquid markets, such as interest rate swaps, model inputs (i.e. contractual terms, market prices, yield curves, credit curves and measures of volatility) can generally be verified and model selection does not involve significant management judgment.

8. Pension Plans

The Hospital's Boards of Trustees (the "Boards of Trustees") authorized the adoption of a noncontributory, defined benefit pension plan called the Pension Plan for Union-Represented Employees Hired before July 1, 2000 for the benefit of certain employees of CHOP as of June 30, 2000 who are covered under the collective bargaining agreement between CHOP and the National Union of Hospital and Health Care Employees, District 1199C. This plan excludes those employees of CHOP who had at least 15 years seniority with CHOP as of July 1, 2000, or who would be eligible to retire on an early or normal retirement date under the terms of the Pension Plan for Hospital and Health Care Employees, Philadelphia Vicinity (the "1199C Plan"), as in effect on June 1, 2000, on or before July 1, 2001, based on their anticipated service as of July 1, 2001 ("Grandfathered Union Employees"). These Grandfathered Union Employees remain in the 1199C plan.

On April 30, 2021, Children's Hospital of Philadelphia announced that The Children's Hospital of Philadelphia Pension Plan for Union-Represented Employees will be frozen as of December 31, 2021, and participants will not receive compensation credits or benefit accruals for periods beginning on or after January 1, 2022. This announcement resulted in a curtailment and remeasurement of net periodic pension cost for the Plan for the remainder of the 2021 fiscal year. There was no gain or loss due to this change. In June 2021, the Board of Trustees approved the termination of the plan effective December 31, 2021; as such the termination was determined to be imminent as of June 2021. In FY2024, CHOP liquidated the plan, paying out \$93,927 in settlements to plan participants. During the year ending June 30, 2020, the Children's Hospital of Philadelphia Foundation loaned the Union Plan \$12,000 which will be repaid with an exchange of alternative investments. Repayments of the loan began in FY2023 with \$3,336 repaid as of June 30, 2024 and \$3,336 was repaid as of June 30, 2025.

The Boards of Trustees authorized the adoption of a noncontributory defined benefit pension plan with a cash balance payment formula called The Children's Hospital of Philadelphia Pension Plan for Union-Represented Employees Hired On or After July 1, 2000. This plan was similar to The Children's Hospital of Philadelphia Pension Account Plan as in effect at that time. This plan covers the employees under the collective bargaining agreement between CHOP and District 1199C hired on or after July 1, 2000.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

The 2025 and 2024 actuarially computed cost for the Plan, Pension Plan for Union Represented Employees hired before July 1, 2000 and Pension Plan for Union-Represented Employees hired after on or July 1, 2000 included the following components:

	2025	2024
Change in benefit obligation		
Benefit obligation at beginning of year	\$ -	\$94,892
Service cost	-	1,000
Interest cost	-	211
Actuarial (gain) loss	-	(702)
Benefits paid	-	(474)
Other	-	(1,000)
Settlements	-	(93,927)
Benefit obligation at end of year	-	-
Change in plan assets		
Fair value of plan assets at beginning of year	-	66,783
Actual return on plan assets (net expenses)	-	6,618
Employer contributions	-	22,000
Benefits paid	-	(474)
Other	-	(1,000)
Settlements	-	(93,927)
Fair value of plan assets at end of year	-	-
Reconciliation of the funded status		
Funded status	-	-
Accrued pension cost	\$ -	\$ -

The accumulated benefit obligation for all defined benefit pension plans was \$0 and \$0 at June 30, 2025 and 2024, respectively.

	2025	2024
Components of net periodic benefit cost		
Service cost	\$ -	\$ 1,000
Interest cost	-	211
Expected return on plan assets	-	(121)
Amortization of prior service cost	-	-
Amortization of net actuarial loss	-	46
Settlement	-	19,130
Net periodic benefit cost	\$ -	\$ 20,266
Net (loss) / Gain	-	(7,199)
Amortization of prior service cost	-	-
Amortization of net loss	-	(46)
Total recognized in net assets without donor restrictions	-	(7,245)
Total recognized in net periodic benefit cost and net assets without donor restrictions	\$ -	\$ 13,021

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

The estimated net loss that will be amortized from net assets without donor restrictions into net periodic benefit cost over the next fiscal year is \$0. Amounts not yet recognized in net periodic benefit cost include \$0 and \$0 in actuarial loss and \$0 and \$0 in prior service cost for the periods ended June 30, 2025 and 2024, respectively.

There were no plan assets of these pension plans at June 30, 2025 and 2024.

The Boards of Trustees authorized the adoption of a supplemental retirement plan, called The Children's Hospital of Philadelphia Retirement Savings Plan, which is a tax-deferred annuity plan under Section 403(b) of the IRC of 1986, as amended, for non-bargaining unit employees.

The Boards of Trustees authorized the adoption of a supplemental retirement plan, called The Children's Hospital of Philadelphia Retirement Savings Plan for Union-Represented Employees, which is a tax-deferred annuity plan under Section 403(b) of the IRC of 1986, as amended, for bargaining unit employees.

The Enterprise also has The Children's Hospital of Philadelphia Funded Retirement Savings Plan which is a defined contribution plan that operates under Section 401(a) of the Internal Revenue

Code (IRC) covering all employees of The Children's Hospital of Philadelphia (the Hospital) and any other subsidiaries as approved by the Board of Trustees of the Hospital (collectively, the Participating Employers), however, the Plan is sponsored by the Hospital. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Total expenses under the supplemental retirement 403(b) plans were \$42,765 and \$38,365 for the periods ended June 30, 2025 and 2024. Total expenses under the funded retirement savings 401(a) plan were \$73,540 and \$62,400 for the periods ended June 30, 2025 and 2024.

9. Commitments and Contingencies and Other Transactions

Industry

The healthcare industry in general and the services that the Enterprise provides are subject to extensive federal and state laws and regulations. Additionally, a portion of the Enterprise's net revenue is from payments by government-sponsored healthcare programs, principally Medicaid, and is subject to audit and adjustments by applicable regulatory agencies. Failure to comply with any of these laws or regulations, the results of regulatory audits and adjustments, or changes in the amounts payable for the Enterprise's services under these programs, could have a material adverse effect on the Enterprise's financial position and results of operations.

Litigation

Although the Enterprise is party to certain claims and litigation, in the opinion of management, the final outcome of these are not reasonably expected to have a material adverse effect on their consolidated financial position or results of operations.

Professional Liability Insurance

By an agreement effective April 1, 1998 among CHOP and Children's Anesthesiology Associates, Ltd., Children's Health Care Associates, Inc., Children's Surgical Associates, Ltd., and Radiology Associates of Children's Hospital, Inc. (collectively, together with their New Jersey counterparts and their affiliates, the "Practice Plans"), and the Hospital's Departments of Pathology and Laboratory Medicine and Child and Adolescent Psychiatry (together with the Practice Plans, the

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

"Departments"), CHOP and the Departments entered into a Joint Insurance Program (the "Joint Program"). Through June 30, 2001, the Joint Program was administered with the Departments participating with CHOP in its large deductible policies.

All claims with respect to occurrences beginning July 1, 2001 are insured through First Medical Insurance Company, a Risk Retention Group ("RRG"), domiciled in Vermont that was established by CHOP and certain of its tax-exempt affiliates, including the Practice Plans. Funding for indemnity, defense and other corporate expenses for the RRG are included in RRG accounts. The July 1, 2001 to July 1, 2002 policy period was novated from a large deductible commercial policy into the RRG effective July 2003.

CHOP includes the RRG's and other related investments, reserves, claim liabilities, and expenses for self-insured malpractice claims in the accompanying financial statements. Deposits to the RRG and other reserves are actuarially determined and represent estimates of funding necessary to cover the potential liability for professional malpractice claims and related legal fees and other expenses for CHOP and its affiliated health care provider entities and their covered physicians.

The estimate of the gross liability and corresponding receivable for unasserted claims arising from unreported incidents is based on analysis of historical claims data by an independent actuary, which is recorded utilizing a 3.0% to 4.5% discount rate at June 30, 2025 and 2024. Total liability under this program is approximately \$355,856 and \$335,496 included in other liabilities on the balance sheet, with a corresponding receivable from MCARE included in other receivables of \$20,798 and \$33,725 at June 30, 2025 and 2024, respectively. CHOP also purchases catastrophic excess coverage.

CHOP and most of the physicians insured by the RRG are subject to Pennsylvania and/or New Jersey law requiring professional liability insurance. For policies written in 2002 and prior, the amount of required coverage pursuant to Pennsylvania law for physicians and nurse midwives was \$1.2 million per incident/\$3.6 million in the aggregate. For policies written subsequent to 2002, the required amount of coverage is \$1 million per incident/\$3 million in the aggregate.

The Medical Care Availability and Reduction of Error Fund ("MCARE")

The Medical Care Availability and Reduction of Error Fund ("MCARE Fund"), an agency fund of the Commonwealth of Pennsylvania, acts as a service agent to facilitate the payment of medical malpractice claims exceeding the primary layer of professional liability insurance carried by CHOP, and most of the physicians they insure. The MCARE Fund levies healthcare provider surcharges, as a percentage of joint underwriting association premiums for basic coverage, to pay claims and administrative expenses on behalf of MCARE Fund participants.

The actuarially computed liability to all health care providers (hospital, physicians and others) participating in the MCARE Fund at June 30, 2024 (the latest date for which such information is available) was \$1.161 billion. CHOP, the Practice Plans, and the employed/insured physicians paid surcharge assessments during fiscal 2025 and 2024 totaling \$9,883 and \$7,251, respectively. No provision has been made for any MCARE Fund unfunded liabilities in the accompanying financial statements as CHOP's portion of the MCARE Fund unfunded liability cannot be reasonably estimated.

Workers' Compensation

The Enterprise is self-insured for workers' compensation claims. At June 30, 2025 and 2024, the Enterprise has an estimate of \$7,982 and \$6,889 respectively, included in accounts payable and

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Consolidated Financial Statements
June 30, 2025 and 2024
(in thousands of dollars)

accrued expenses to reserve for potential losses under the program. The discount rate used is 3%.

Other Transactions

The Practice Plans utilize the payroll accounting infrastructure of The University of Pennsylvania (UPenn) for certain Practice Plan personnel. Amounts due to these entities include in accounts payable and accrued expenses are as follows at June 30:

	2025	2024
UPenn	<u>\$49,347</u>	<u>\$45,093</u>

10. Concentrations of Credit Risk

The Enterprise grants credit without collateral to their patients, most of whom reside in the Delaware Valley, and are insured under third-party payor agreements. The mix of net receivables from patients and third-party payors at June 30 is as follows:

	2025	2024
Blue Cross/Blue Shield	27%	29%
Medical Assistance	9%	6%
MA-Managed Care	29%	31%
Commercial	13%	13%
Aetna	7%	6%
Self Pay	2%	1%
Other	4%	5%
International	9%	9%
	<u>100%</u>	<u>100%</u>

11. Functional Expenses

The Enterprise provides general and specialty health care services to pediatric patients. Costs by function are directly charged based on discrete cost centers. Expenses related to providing these services as of June 30 are as follows:

	June 30, 2025					
	Health Care Services	Research Services	Fundraising	Education	General and Administrative	Total
Salaries, wages and professional fees	\$1,452,814	\$257,564	\$25,703	\$53,516	\$662,056	\$2,451,653

12. Liquidity and Availability of Resources

Financial assets available within one year of the balance sheet date for general expenditures such as operating expenses and construction costs not financed with debt are as follows:

	2025	2024
Cash	\$288,523	\$339,895
Receivables from patient services	1,074,340	1,080,048
Due from third parties	94,127	66,178
Other receivables	111,616	84,664
Investments	<u>563,452</u>	<u>531,531</u>
	<u>\$2,132,058</u>	<u>\$2,102,316</u>

Current financial assets not available for general use because of contractual or donor-imposed restrictions were \$1,046,746 and \$660,001 at June 30, 2025 and 2024, respectively. Amounts not available for general use include amounts set aside for scheduled principal payments, self-insurance funds, and time and purpose restricted assets. As of June 30, 2025, the Enterprise has \$1,710,489 of Board of Trustee-designated assets limited to use which are excluded from the quantitative information above; however, these assets can be released by the Board of Trustees and made available for general expenditure. The Enterprise strategically manages financial assets to ensure adequate liquidity for general expenditures and other obligations as they come due. In addition, the Enterprise invests cash in excess of daily requirements in short-term investments. The Enterprise maintains line of credit facilities with several banks to provide additional liquidity should unanticipated needs arise. In determining the amount of liquidity in board-designated endowment funds, management excludes amounts held in investments that may contain provisions prohibiting

(in thousands of dollars)

their redemption within one year and other investments for which redemption within one year may not be practical.

13. Subsequent Events

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates has evaluated and concluded that subsequent events are properly reflected in The Enterprise financial statements and notes as required by standard for accounting disclosure of subsequent events as of September 19, 2025, the original issuance date of the financial statements as of and for the year ended June 30, 2025.

(in thousands of dollars)

1. Basis of Presentation

The supplementary consolidating financial statements presented on pages 36-38 were derived from and relate directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial positions and changes in net assets of the individual companies within the Enterprise and are not a required part of the consolidated financial statements. The individual affiliates within the Enterprise as presented within the supplementary consolidating financial statements are disclosed within Note 1 to the consolidated financial statements.

The supplementary consolidating financial statements also includes the financial positions and changes in net assets of the Children's Hospital of Philadelphia Obligated Group. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements and is not a required part of the consolidated financial statements.

The Children's Hospital of Philadelphia Foundation and Controlled Affiliates
Notes to Schedules of Expenditures of Federal and State Awards
Fiscal Year Ended June 30, 2025

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards, Schedule of Expenditures of State Awards, and Supplemental Statements of Program Expenditures and Program Revenues (the "Schedules"), which include the Federal and State of New Jersey grant transactions of The Children's Hospital of Philadelphia Foundation and Controlled Affiliates (the "Enterprise"), and the federal funds passed through the City of Philadelphia, are recorded on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Because the Schedules present only a selected portion of the operations of the Enterprise, they are not intended to and do not present the financial position, changes in net assets or cash flows of the Enterprise. The information in these Schedules is presented in accordance with the requirements of *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), *the State of New Jersey Single Audit Policy Circular Letter 15-08-OMB*. Negative amounts represent adjustments or credits to amounts reported as expenditures in prior years. The pass-through ID numbers were noted in the Schedule of Expenditures of Federal Awards when available.

2. Facilities and Administrative Costs

Total federal expenditures consist of direct costs and indirect costs. The Enterprise applies its predetermined approved facilities and administration rate when charging indirect costs to federal awards rather than the 10% de minimis cost rate as described in Section 200.414 of the Uniform Guidance.

Reports on Internal Control and Compliance

**Report of Independent Auditors on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

To The Board of Trustees of The Children's Hospital of Philadelphia Foundation

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of The Children's Hospital of Philadelphia Foundation and Controlled Affiliates (the "Enterprise"), which comprise the consolidated balance sheet as of June 30, 2025, and the related consolidated statements of operations and changes in net assets and of cash flows for the year then ended, including the related notes (collectively referred to as the "consolidated financial statements"), and have issued our report thereon dated September 19, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Enterprise's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Enterprise's internal control. Accordingly, we do not express an opinion on the effectiveness of the Enterprise's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Enterprise's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Enterprise's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Enterprise's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report of Independent Auditors on Compliance for Each Major Program and on
Internal Control Over Compliance Required by Uniform Guidance and the *City of Philadelphia
Subrecipient Audit Guide*, which incorporates guidance from the Uniform Guidance**

To The Board of Trustees of The Children's Hospital of Philadelphia Foundation

Report on Compliance for Each Major Federal and City of Philadelphia Program

Opinion on Each Major Federal and City of Philadelphia Program

We have audited The Children's Hospital of Philadelphia Foundation and Controlled Affiliates' (the "Enterprise") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the *City of Philadelphia Subrecipient Audit Guide*, which incorporates guidance from OMB Uniform Guidance, that could have a direct and material effect on each of the Enterprise's major federal and City of Philadelphia programs for the year ended June 30, 2025. The Enterprise's major federal and City of Philadelphia programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Enterprise complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and City of Philadelphia programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal and City of Philadelphia Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (US GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the audit requirements of the City of Philadelphia Subrecipient Audit Guide, which incorporates guidance from OMB Uniform Guidance. Our responsibilities under those standards, the Uniform Guidance, and the City of Philadelphia Subrecipient Audit Guide are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Enterprise and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and City of Philadelphia program. Our audit does not provide a legal determination of the Enterprise's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes,

regulations, rules and provisions of contracts or grant agreements applicable to the Enterprise's federal and City of Philadelphia programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Enterprise's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Enterprise's compliance with the requirements of each major federal and City of Philadelphia program as a whole.

In performing an audit in accordance with US GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Enterprise's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Enterprise's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *City of Philadelphia Subrecipient Audit Guide* but not for the purpose of expressing an opinion on the effectiveness of the Enterprise's internal control over compliance. Accordingly, no such opinion is expressed

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2025-001. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the Enterprise's response to the noncompliance findings identified in our audit described in the accompanying Schedule of Findings and Questioned Costs and Management's Views and Corrective Action Plan. The Enterprise's response was not subjected to

the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or city program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or city program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or city program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *City of Philadelphia Subrecipient Audit Guide*, which incorporates guidance from OMB Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Section II – Financial Statement Findings

There are no matters to be reported.

The Children’s Hospital of Philadelphia Foundation and Controlled Affiliates Schedule of Findings and Questioned Costs Fiscal Year Ended June 30, 2025

Section III – Federal and City Awards Findings and Questioned Costs

Finding 2025-001: Direct Costs – Compensation

Grantor: Department of Health and Human Services

Award Name: High Impact HIV Prevention and Surveillance Programs; Research and Development

Assistance Listing Number: 93.940; 93.838

Assistance Listing Title: HIV Prevention Activities Health Department Based; Lung Diseases Research

Award Year: 07/1/2024 – 06/30/2025

Award Number: CP4043 and CP5043 (2220536); OT2HL161847-01

Pass-through: Not applicable

Criteria

2 CFR part 200.430 addresses compensation charges. The regulations note that compensation charges should be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated and comply with the established accounting policies and practices of the non-Federal entity.

Children’s Hospital of Philadelphia has implemented an employee time reporting system in which effort is reviewed to ensure the effort charged to the grant is accurate and is based on the actual effort devoted to the various functional and programmatic activities to which the salary and wage costs are charged. Additionally, in order to ensure the effort charged to grants is appropriate, the Hospital has a policy in place that defines the period by which the effort certification process should be complete. Per Hospital policy, the effort reports are required to be completed and certified within 90 days of the reporting period end date, which occurs every quarter.

Condition

Out of 39 effort reports selected for compensation testing, 3 effort reports were not certified within 90 days of the effort reporting period in accordance with Children’s Hospital of Philadelphia policy. Although the effort reports were not certified timely, there were no questioned costs related to the costs charged.

Cause

The delay in certification was primarily due to personnel not consistently adhering to the established effort reporting framework. There was a lack of awareness regarding deadlines.

Questioned Costs

There were no questioned costs related to this finding as payroll charges were allowable.

Effect

Effort reports may contain inaccuracies that remain uncorrected for a period of time if effort related to grants is not certified in a timely manner..

Repeat finding in the Prior Year

No

Recommendation

We recommend the Hospital continue to enhance the execution of the effort reporting policy to ensure all effort reports are certified in a timely manner. As part of these enhancements, we recommend additional training for the individuals in the effort reporting process, including notifications of effort reporting deadlines.

Award Year: July 1, 2023 to June 30, 2024

Pass-through: IllExcor Therapeutics LLC, N/A – Direct Grant

Summary

Under 2 CFR 200.320(c) vendors above a micro-purchase threshold require a competitive process that includes soliciting multiple bids/quotes to justify best value. The Uniform Guidance requires purchasing decisions to be documented, including sole source justification, as applicable.

For two out of five procurement selections totaling \$158,000, evidence of the procurement process (signed competitive bid or sole source documentation and the related approvals), was not retained in the procurement file. As such, we were unable to obtain the required documentation to support vendor selection and price justification.

Status Update

CHOP is committed to full compliance with reporting requirements for all external agencies. Our organization has implemented additional controls and education for our team members. Formal training was conducted for our Purchasing and Contracting teams to ensure all established procurement processes and policies are adhered to. Additional auditing of CHOP purchases meeting the bid threshold is conducted monthly by the CHOP Procurement Manager and AVP, Sourcing, Contracting, and Procurement. Additionally, a review by the National Institutes of Health Division of Financial Advisory Services concurred with the corrective action plan.

The Children’s Hospital of Philadelphia Foundation and Controlled Affiliates

Summary Schedule of Prior Audit Findings

Fiscal Year Ended June 30, 2025

2024-002 – Eligibility

Federal Granting Agency: HRSA – Health Resources & Service Administration

Award Name: Part A Formula Ryan White HIV/AIDS Treatment Modernization Act

Assistance Listing #: 93.914

Award Year: 3/1/2023 – 2/29/2024; 3/1/2024-2/28/2025

Pass-through: City of Philadelphia, Department of Public Health, Division of HIV Health

Summary

Per the AACO/PA Dept. of Health Ryan White Part A/B – Payer of Last Resort Client Certification Form Instructions, “The Health Resources and Services Administration (HRSA) standards require service providers who receive Ryan White funding to screen clients and collect supporting documentation to certify their eligibility for Ryan White-funded services based on HIV positive diagnosis, identity, residence, insurance status, and income. The standards further require Ryan White recipients and subrecipients to “conduct timely eligibility confirmations, in accordance with their policies and procedures, to assess if the client’s income and/or residency status has changed.” Additionally, the form states that copy of all documentation are to be retained by the provider.

For 2 of the 25 patient files selected for testing, while there was initial intake documentation in the file to support the eligibility of the patient, the required recertification had not been performed timely. However, for both program participants, CHOP provided records to support that the program participant met the eligibility requirements.

Status Update

Implemented a monthly report of patients who need updated documentation of their Ryan White eligibility (including financial, residential, and diagnostic assessments) which our medical case managers will complete in EPIC. Once they are complete in EPIC, this will be documented in CAREWare, and we will be able to pull reports to ensure we are meeting this requirement.

Management's Views and Corrective Action Plan

Management acknowledges the finding related to delayed effort report certification. We recognize the importance of timely and accurate effort reporting as well as ensuring compliance with federal and institutional requirements. Children's Hospital of Philadelphia Research Institute has implemented a new Effort Compensation Compliance system for effective July 1, 2025. This new system will enhance monitoring of timely effort certifications through automated reminders and greater transparency. With this implementation, training and reference materials will be provided to all personnel involved in effort reporting to ensure they understand the importance of timely certification and the potential impact of delays on grant compliance.
