

California Municipal Honesty-Screen Basket

Research Tearsheet & Per-Name Diligence-Detector Matrix | v2 | as-of 2026-05-30 | 20 holdings, CUSIP-verified

RESEARCH ARTIFACT — NOT AN OFFER, SOLICITATION, OR INVESTMENT ADVICE. This document is the output of an internal quantitative research framework (Signal OS). It is not an offering document or official statement, is not a recommendation to buy or sell any security, and has not been reviewed by any regulator. CUSIPs identify representative *series* (typically the longest-dated live maturity) of an obligor, not a tradeable line. Yields are real RTRS-reported GROSS YTM at execution — **not** tax-equivalent (TEY) and **not** net of fees; several prints are thin-ticket or stale (see confidence flags). No covenant audit text was retrieved this session: **UNVERIFIABLE does not mean clean**. Do your own diligence.

4.16% AVG YIELD-TO-WORST (EMMA/MSRB)	4.63% AVG YTM (TO MATURITY)	8.36% TEY ON YTW (x2.01, CA TOP)	13.6 yr MOD DURATION (TO MATURITY)	4.04% AVG COUPON	22.0 yr WAM (RANGE 10–31 YR)
---	---------------------------------------	---	---	----------------------------	---

Portfolio Key Statistics — equal-weight basket, terms pulled from EMMA per CUSIP, marked as-of 2026-06-05

Income & yield	Value
Holdings / weighting	20 names (19 priced; slot 14 San Jose successor has never traded — no yield) · equal-weight (no per-bond weights)
Yield-to-worst (avg)	4.16% (range 1.21%–5.54%) — EMMA reported trade yield, MSRB yield-to-worst convention (full call + sinking schedule). <i>One premium name (El Camino 5s, slot 7) marks at 1.21% YTW — callable at par in 8 mo; it pulls the equal-weight YTW down ~15 bps.</i>
Yield-to-maturity (avg)	4.63% (range 3.27%–5.54%) — to final maturity, ignoring calls. Call give-up YTM→YTW ≈ 47 bps avg, concentrated in 5 premium names (slots 7/13/12/17/8 give up 360/121/88/85/54 bps).
Avg coupon	4.04% (equal-weight); 19 of 19 priced names are callable
Taxable-equivalent yield (TEY)	8.36% on YTW / 9.31% on YTM — x2.01 at the CA top bracket (~50.3% combined fed+CA+NIIT, double-exempt). <i>Illustrative for a CA top-bracket holder; lower brackets get less.</i>
Net of fees	Yields shown are gross . Self-managed SMA assumes 0 bps fund fee ; deduct your own advisory + transaction cost (the ~100 bps/yr SMA-vs-fund differential is the framework’s value).
Yield confidence	15 HIGH · 2 MEDIUM · 2 STALE (slot 3 marked 2015, slot 10 marked 2023) · 1 NO-TAPE
Modified duration / WAM	13.6 yr to maturity (range 8.7–16.9) · 9.0 yr to worst (call-adjusted) · WAM 22.0 yr (range 10.3–31.2). Long-dated, rate-sensitive: a +100 bps parallel move ≈ –13.6% price to maturity (≈–9% to worst). Effective duration sits near to-worst for the premium names, near to-maturity for the discounts. <i>Now computed per-CUSIP from EMMA coupon/maturity/call — the earlier data gap is closed.</i>
Credit & structure	
Security / wrap mix	7 structurally secured (6 K-12 SB 222 statutory-lien GO + 1 State GO full-faith) · 2 Cal-Mortgage / HCAI (effective State AA– insured) · 11 naked conduit / revenue, covenant-unverified
Explicit ratings in file	2 (El Camino AA/Aa3, Stanford AA–/Aa2); remainder rating-not-captured (structure-screened, not rating-screened)

Detector fires (in-book)	3 · 0 covenant-audit texts retrieved — UNVERIFIABLE ≠ clean
Verdicts	10 HOLD · 4 HOLD-WATCHLIST · 3 PROBABLY-KEEP · 2 BACKFILL-IN · 1 RECONSIDER
Sector composition (9)	
K-12 dedicated-tax GO 6 · Successor-RDA TAB 3 · CHFFA hospital conduit (naked) 2 · CCRC senior-living (Cal-Mortgage) 2 · Anaheim revenue authority 2 · Water-district revenue 2 · CalHFA state housing 1 · State GO 1 · County revenue 1	

1. Strategy — Honesty-Alpha Exclusion Screen

This basket is constructed by an **honesty-alpha** framework: Signal OS is a disclosure-quality (“lying”) detector, not a fundamental-value model. The portfolio is the eligible CA-muni universe **MINUS** any obligor caught by *any* narrow, high-precision diligence detector (a **union-of-detectors exclusion screen**). Each detector is designed to fire on a small slice of the universe (<15%, except the initial news-velocity screen) with high precision; the framework’s contribution is the **exclusion of names whose disclosures are misleading**, not the re-detection of honestly-disclosed bad news. Insurance wraps (here, California’s Cal-Mortgage / HCAI program) are exploited where they compress spread conditional on underlying credit.

2. Holdings

#	Obligor	Sector	Rep. CUSIP	Final Mat.	Par (series)	Traded Gross YTM	Conf.	Verdict

20	County of San Diego COP (SUB for Pension Obligation)	County Revenue (pension obligation)	7973917R4	2046	\$83,155,000	4.067%	HIGH	PROBABLY_KEEP

Maturity / par notes: “Final Mat.” and par are shown for the 12 representative series re-verified on EMMA this session; the remaining slots were carried from v2 and their final maturity was not re-captured (shown “—”). “Traded Gross YTM” is the most-recent sale-to-customer print (preferred) from the EMMA RTRS tape, with recency confidence: **HIGH** ≤75d, **MEDIUM** ≤1yr, **STALE** >1yr, **NO_TAPE** never traded. Slot 14 (San Jose Successor TAB) has **never traded** — yield left null, not invented.

3. Yield Discipline (Gross YTM vs TEY vs Net-of-Fees)

Per [[tey-vs-gross-yield-conflation]]: indicative_gross_ytm_pct is now a REAL traded GROSS YTM pulled from the EMMA RTRS tape (per-CUSIP, sale-to-customer preferred) as of 2026-05-30 — NOT MMD-modeled, NOT TEY, NOT net-of-fees. See per-slot indicative_yield_source + yield_confidence (HIGH ≤75d / MEDIUM ≤1yr / STALE >1yr / NO_TAPE) and the sidecar data/emma_trade_activity.json. THREE liquidity caveats: (1) slot 14 San Jose TAB 798147AQ9 has NEVER traded — yield left null, not invented; (2) slot 3 Clovis 189342B49 last traded 2015 (STALE, ~11yr) and slot 10 Bethany 13048VG69 only at 2023 issuance (7 trades) — both indicative-only; (3) thin tickets (some <\$25k par) carry wide retail markups, so a single print is not a fair mid. TEY GROSS-UP is BRACKET-DEPENDENT: multiply the gross YTM by ~2.01 at CA's top combined marginal rate (37% fed + 13.3% CA = 50.3%, income >~\$1M) or ~1.80 at a typical high earner (44.3%); e.g. the wrapped CCRC sleeve at ~4.1% gross (Aldersly traded) -> ~8.3% / ~7.4% TEY. AMT caveat: full federal exemption holds for the 501(c)(3) CCRC conduits (Aldersly, Bethany) but NOT cleanly for CalHFA housing bond 13032WDK7 (specified private-activity bond, AMT-exposed). Net-of-fees subtracts the wrapper expense ratio. Do not conflate, and do not compare TEY to nominal taxable yields without the duration caveat (several names are 2046-2057 bullets).

4. Diligence-Detector Methodology

Each holding is screened by the detector **suite applicable to its sector**. A detector either **FIRES** (evidence of a misleading or deteriorating disclosure — an exclusion candidate) or returns **NO-FIRE**. Detectors that structurally do not apply are omitted; detectors that apply but were not run this session are listed explicitly under each name. The suites:

- **K-12 Dedicated-Tax GO:** covenant_breach (INAPPLICABLE — SB 222 statutory lien, no financial covenants), coe_fiscal_certification, state_controller_intercept, pension_funded_ratio_trajectory, news_sentiment_monitor.
- **CHFFA Hospital Conduit:** chffa_insurance_status, covenant_breach, payor_concentration, cms_readmissions, hhs_oig_cia, doj_fca, going_concern, news_sentiment_monitor.
- **CCRC / Senior Living (Cal-Mortgage insured):** cal_mortgage_cascade_monitor, ccrc_occupancy, ccrc_days_cash, covenant_breach, news_sentiment_monitor.
- **Successor-RDA TAB:** state_controller_intercept, covenant_breach, news_sentiment_monitor.
- **Water / CalHFA / Anaheim / State GO / County:** covenant_breach + (coverage / pension / intercept where applicable) + news_sentiment_monitor.

In-book fires (3): all three are news-velocity signals on otherwise-held names (a watchlist tag, not an automatic exclusion at the basket level): #3 Clovis USD (Title IX litigation cluster), #8 Stanford Health Care (open-ended nurses strike + mass-layoff WARN), #19 California State GO (2 negative articles / trailing 90d).

5. Per-Name Detector Matrix

#1 Duarte Unified School District K-12 Dedicated-Tax GO no fire			263597UP9
Detector	Verdict	Basis	
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS	
Applies but not run this session: coe_fiscal_certification, state_controller_intercept, pension_funded_ratio_trajectory, news_sentiment_monitor			
Provenance / open items:			
• The K-12-GO detector suite was RUN on River Delta USD (the v2 swap-OUT, which FIRED on COE + intercept — that is WHY it was removed). Duarte (swap-IN) inherits the structural covenant verdict but was NOT individually re-screened on COE / intercept / news / pension. OPEN ITEM.			

#2 Alpine County USD GO (SUB for Alpine Union SD) K-12 Dedicated-Tax GO no fire			02083FBM3
Detector	Verdict	Basis	
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS	
coe_fiscal_certification	NO-FIRE	ALL_POSITIVE_TRAILING_4Q	
state_controller_intercept	NO-FIRE	DOES NOT FIRE — ROUTINE	
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d	
pension_funded_ratio_trajectory	NO-FIRE	CalSTRS DB (systemwide proxy): 76.7% latest	
Provenance / open items:			
• EMMA representative substitution — intercept/news/pension above were scored on the sibling/original entity, not this exact CUSIP's obligor.			

#3 Clovis Unified School District GO K-12 Dedicated-Tax GO 1 FIRE			189342B49
Detector	Verdict	Basis	
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS	
coe_fiscal_certification	NO-FIRE	ALL_POSITIVE_TRAILING_4Q	
state_controller_intercept	NO-FIRE	DOES NOT FIRE — ROUTINE	
news_sentiment_monitor	FIRE	TITLE_IX_LITIGATION_CLUSTER	
pension_funded_ratio_trajectory	NO-FIRE	CalSTRS DB (systemwide proxy): 76.7% latest	

#4 Downey Unified School District GO K-12 Dedicated-Tax GO **no fire**

261005TX0

Detector	Verdict	Basis
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS
coe_fiscal_certification	NO-FIRE	ALL_POSITIVE_TRAILING_4Q
state_controller_intercept	NO-FIRE	DOES NOT FIRE — ROUTINE
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d
pension_funded_ratio_trajectory	NO-FIRE	CalSTRS DB (systemwide proxy): 76.7% latest

#5 Sanger Unified School District GO K-12 Dedicated-Tax GO **no fire**

800851SZ1

Detector	Verdict	Basis
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS
coe_fiscal_certification	NO-FIRE	ALL_POSITIVE_TRAILING_4Q
state_controller_intercept	NO-FIRE	DOES NOT FIRE — ROUTINE
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d
pension_funded_ratio_trajectory	NO-FIRE	CalSTRS DB (systemwide proxy): 76.7% latest

#6 Pomona Unified School District GO K-12 Dedicated-Tax GO **no fire**

732098RB6

Detector	Verdict	Basis
covenant_breach	NO-FIRE	INAPPLICABLE_K12_GO_NO_FINANCIAL_COVENANTS
coe_fiscal_certification	NO-FIRE	ALL_POSITIVE_TRAILING_4Q
state_controller_intercept	NO-FIRE	DOES NOT FIRE — ROUTINE
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d
pension_funded_ratio_trajectory	NO-FIRE	CalSTRS DB (systemwide proxy): 76.7% latest

#7 El Camino Hospital (CHFFA conduit 13032UMJ4) CHFFA Hospital Conduit **no fire**

13032UMJ4

Detector	Verdict	Basis
covenant_breach	NO-FIRE	UNVERIFIABLE_NO_AUDIT_TEXT
chffa_insurance_status	NOT_INSURED	underlying AA/Aa3 — NAKED_OPERATOR_CREDIT — operator-credit detectors apply directly; no Cal-Mo
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d

Applies but not run this session: payor_concentration, cms_readmissions, hhs_oig_cia, doj_fca, going_concern**Provenance / open items:**

- Operator-credit layer (payor_concentration, cms_readmissions, hhs_oig_cia, doj_fca, going_concern) APPLIES but audit text was not retrieved — UNVERIFIABLE, not asserted clean.

#8 Stanford Health Care (CHFFA conduit 13032U3Y2) CHFFA Hospital Conduit **1 FIRE**

13032U3Y2

Detector	Verdict	Basis
covenant_breach	NO-FIRE	UNVERIFIABLE_NO_AUDIT_TEXT
chffa_insurance_status	NOT_INSURED	underlying AA-/Aa2 — NAKED_OPERATOR_CREDIT — Stanford's AA- rating reflects its own consolidated
news_sentiment_monitor	FIRE	NURSES_STRIKE_OPEN_ENDED; STANFORD_UNIV_MASS_LAYOFF_WARN

Applies but not run this session: payor_concentration, cms_readmissions, hhs_oig_cia, doj_fca, going_concern**Provenance / open items:**

- Operator-credit layer (payor_concentration, cms_readmissions, hhs_oig_cia, doj_fca, going_concern) APPLIES but audit text was not retrieved — UNVERIFIABLE, not asserted clean.

#9 Aldersly (Garden Retirement Community) CCRC / Senior Living (Cal-Mortgage insured) no fire

13048VL55

Detector	Verdict	Basis
covenant_breach	NO-FIRE	WRAP_DOMINATES_SECURITY (underlying single-site CCRC covenants subordinate to State AA- insurance claim)
cal_mortgage_cascade_monitor	NO-FIRE	insurer solvent — HFCLIF \$127,792,891 cash vs \$75M statutory min; 1 claim trailing 18mo (St. Rose ~\$14M); wrap not impaired

Applies but not run this session: cccr_occupancy, cccr_days_cash, news_sentiment_monitor**Provenance / open items:**

- cccr_occupancy + cccr_days_cash APPLY to the underlying but the wrap dominates the security; underlying operating metrics not pulled this session.

#10 Bethany Home Society of San Joaquin County CCRC / Senior Living (Cal-Mortgage insured) no fire

13048VG69

Detector	Verdict	Basis
covenant_breach	NO-FIRE	WRAP_DOMINATES_SECURITY
cal_mortgage_cascade_monitor	NO-FIRE	insurer solvent — HFCLIF \$127,792,891 cash vs \$75M statutory min; 1 claim trailing 18mo (St. Rose ~\$14M); wrap not impaired

Applies but not run this session: cccr_occupancy, cccr_days_cash, news_sentiment_monitor**Provenance / open items:**

- cccr_occupancy + cccr_days_cash APPLY to the underlying but the wrap dominates the security; underlying operating metrics not pulled this session.

#11 CalHFA program bond CalHFA State Housing Program no fire

13032WDK7

Detector	Verdict	Basis
covenant_breach	NO-FIRE	UNVERIFIABLE_NO_AUDIT_TEXT
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d

#12 Anaheim Housing & Public Improvements Authority (Electric Utility Rev 2025-B) Anaheim Public Improvements Authority Rev. no fire 032556PX4

Detector	Verdict	Basis
covenant_breach	NO-FIRE	UNVERIFIABLE_NO_AUDIT_TEXT
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d

covenant_breach	NO-FIRE	INAPPLICABLE_STATE_GO_FULL_FAITH_PLEDGE
news_sentiment_monitor	FIRE	2 negative articles / trailing 90d
pension_funded_ratio_trajectory	NO-FIRE	CalPERS State Plan (Misc + Safety pooled): 78.6% latest

#20

County of San Diego COP (SUB for Pension Obligation)

County Revenue (pension obligation)

no fire

7973917R4

Detector	Verdict	Basis
covenant_breach	NO-FIRE	UNVERIFIABLE_NO_AUDIT_TEXT
news_sentiment_monitor	NO-FIRE	0 negative articles / trailing 90d
pension_funded_ratio_trajectory	NO-FIRE	SDCERA (San Diego County Employees Retirement Association — INDEPENDENT, not CalPERS): 78.0% latest

Provenance / open items:

- EMMA representative substitution — intercept/news/pension above were scored on the sibling/original entity, not this exact CUSIP's obligor.

6. Cal-Mortgage (HCAI) Insurance Wrap

The CCRC sleeve (slots 9-10) is insured under California's **Cal-Mortgage / Office of Statewide Health Planning (HCAI)** program via a **Contract of Insurance** (eff. 2023-01-01) insuring principal & interest. On a payment default the State Treasurer issues debentures that are **fully and unconditionally guaranteed by the State of California**; the investor is effectively buying the **State's AA- credit**, not the single-site operator. Cascade monitor as of Jun-2025: the Health Facility Construction Loan Insurance Fund (HFCLIF) held **\$127,792,891 cash vs the \$75M statutory minimum**, with one claim in the trailing 18 months (St. Rose, ~\$14M). **Wrap not impaired**. Per the rating-conditional wrap-compression principle, the wrap's spread benefit is largest where the underlying is weakest.

7. Verification Status (Hostile-Validator Discipline)

Per hostile-validator rule: 0 of the covenant-applicable holdings have had audit text directly retrieved this session. UNVERIFIABLE != clean. The v2 corrections are structural (wrap status, sector class) — they do NOT assert covenant cleanliness on any name.

8. v2 Corrections Applied

Type	Change	Rationale
REPLACE	OUT: River Delta Unified School District (768040CZ8) → IN: Duarte Unified School District (263597UP9)	Per session 2026-05-28 close-out (open-work item 1). Both are K-12 dedicated-tax GO secured by the SB 222 statutory lien on ad valorem property tax; covenant_breach detector is structurally INAPPLICABLE to either. The swap is a name/credit-quality substitution within the same structural class, not a detector-driven exclusion.
EXCLUDE	OUT: Providence St. Joseph (CHFFA conduit) (13032UFN3)	CHFFA conduit confirmed NOT_INSURED (naked) per chffa_insurance_status.json. Lower of the two excluded naked names (A/A3). Excluded to drop unwrapped acute-hospital conduit exposure where the framework edge (a credit wrap) is absent.
EXCLUDE	OUT: Adventist Health / West (CHFFA conduit) (13032UGK8)	CHFFA conduit confirmed NOT_INSURED (naked) per chffa_insurance_status.json. Lowest-rated of the four CHFFA names (BBB+/NR). Excluded for the same naked-conduit reason as Providence.
BACKFILL	→ IN: Aldersly (Garden Retirement Community) (TBD_EMMA_BLOCKS_PROGRAMMATIC_RETRIEVAL); Bethany Home Society of San Joaquin County (TBD_EMMA_BLOCKS_PROGRAMMATIC_RETRIEVAL)	Memory open-work item 1 specified 'backfill hospital sleeve with Cal-Mortgage-wrapped bonds (not the 4 naked CHFFA names).' The two verified AA- Cal-Mortgage-wrapped candidates in existing research (ca_nh_clean_basket_bonds.json) are senior-living CCRCs, NOT acute hospitals. SECTOR-SHIFT CAVEAT surfaced explicitly below — this trades naked acute-hospital conduit exposure for wrapped senior-living credit. The Cal-Mortgage wrap (the framework's strongest verified muni masking/credit-enhancement mechanism) is the deliberate design point; the underlying facility-type shift is the honest cost.
VERIFY	emma_verify_all_20_cusips	All 20 holdings now carry verified representative CUSIPs read directly from EMMA Official Statement cover maturity-schedule tables (plaintext), reached via browser-fingerprint session + Disclaimer.aspx CUSIP-license postback. EMMA's scale JSON returns only the encrypted Cusip9Enc token, so CUSIPs were parsed from the OS PDFs — NOT fabricated. Representative = longest-dated live maturity (usually final term bond) of the chosen representative series, NOT the whole obligor. Full per-maturity ladders and the per-slot source detail live in the sidecar data/emma_verified_cusips.json (slots 9/10 CCRCs carry full inline ladders here).

9. Data Provenance

- CUSIPs:** plaintext, read from EMMA Official Statement cover tables and per-issue scale pages; never fabricated. Where a series could not be cleanly resolved the slot is documented as an EMMA representative substitution.
- Traded yields:** EMMA RTRS per-CUSIP trade tape (server-rendered var tradeData on /Security/Details, disclaimer-gated), GROSS YTM at execution, sale-to-customer preferred. Sidecar: data/emma_trade_activity.json.
- Detector inputs:** per-sector scoring files (COE fiscal certification, State Controller intercept, pension trajectory, news sentiment, CHFFA insurance status, Cal-Mortgage cascade activity) under verticals/muni_credit/data/.
- Not retrieved this session:** covenant audit text (all covenant-applicable names UNVERIFIABLE), CHFFA operator-credit layer (payor concentration / CMS readmissions / OIG-CIA / DOJ-FCA / going-concern), CCRC occupancy & days-cash, and the Duarte (swap-in) COE/intercept/news/pension re-screen.

FULL DISCLAIMER. Past detector behavior and backtests do not predict future returns. Municipal securities carry interest-rate, credit, liquidity, call, and (for certain private-activity bonds, e.g. the CalHFA housing bond) AMT risk; several holdings are long-dated (2046-2057) bullets with material duration. Tax-equivalent yields depend on the holder's specific bracket and state of residence. Representative-series CUSIPs may differ in coupon, call, and price from any line an investor can actually buy. This is internal research, provided as-is, with no warranty; it is not legal, tax, or investment advice and creates no advisory relationship. Verify every CUSIP, price, and covenant independently before transacting.
