

CA Municipal Bond Book — Full Diligence Package

As of 2026-06-21

26 hold-to-maturity holdings · blended after-tax TEY 8.24% · 73% property-tax GO / 27% utility-revenue

What this package contains

Per name: the full **DD report** and a **Sources & Verification** sheet (every load-bearing claim → its primary authority), plus the **raw source documents** (Official Statement, continuing-disclosure filings, EMMA trade tape).

Methodology — first-principles, not promoter-framing

- **School GO**: §53515 unlimited ad-valorem levy (money-good to par); AI-insulation channel-scored; AB-1200 cert (CDE) or ACCJC accreditation; hazard (USGS/FEMA), tax-base concentration, structure, and current AV from continuing disclosure.
- **Utility revenue**: supply verified against **DWR UWMP actual volumes / State Water Board eWRIMS water rights / DWR Bulletin 118** — not the issuer's own OS keywords; DSCR + current coverage from continuing disclosure.
- **Execution**: realized EMMA trade tape → self-directed / desk / thin tier per name.

Holdings

#	CUSIP	Issuer	Cpn	Mat	TEY	Verdict	Execution
1	27677SCN1	essential-service water/wastewater	4.0	2035-07	8.08%	BUY	SELF-DIRECTED

Verdicts are DD-adjudicated; the underwriting screens surface, the DD adjudicates. Liquidity tiers reflect the realized trade tape, not a guaranteed live offer.
