Effective July 1, 2013, the State of California implemented the Local Control Funding Formula (LCFF), a new funding formula for school districts. With the implementation of the LCFF, the Revenue Limit system was terminated. Subsequent budgets will be prepared in accordance with the LCFF and future funding will be determined by the LCFF. As a result of the LCFF implementation, State revenue classifications have changed and a greater portion of total State funding is now reflected as State Apportionments.

LCFF Transfers consists of Special Education Local Plan Area (SELPA) funding, which is derived from a variety of local, State and Federal funding sources.

Interested parties are encouraged to review the audited financial statements of the District for additional information.
