

RFQ / Bid-Wanted Sheet — CA Muni HTM Book (26 names)

As of 2026-06-21. Every name DD-confirmed BUY (combined binder on file). HTM ladder. Offer = recent EMMA customer-buy tape (retail clips, 60d); some are stale stored marks — the desk's live market governs. Size ~\$40,000/name (~\$1,040,000 book).

△ **CALL DISCIPLINE** — read first. Every name is callable at PAR (100); 21 within ~2 years. We do NOT bid above the call price on any name — paying a premium on a near-par-callable makes your yield-to-WORST the call (well below the coupon) and forfeits the premium when it's redeemed. All test bids below are capped at par. Where the market is above par, we pass or wait — we do not chase.

#	CUSIP	Issuer	Cpn	Mat	Tier	Offer	Call (par)	Test bid (≤par)	n/yr

The test — what we want priced

1. **Live two-sided market** on each, and can you **source the offer at size** (\$40,000 clip) — or is it bid-only?
2. **Can you fill at our Test bid?** It's at or below par (capped — see call discipline). Where you can't, show your best offer and the **yield-to-WORST** (to the call, not to maturity) at that offer.
3. **Do NOT show us premium offers as a buy.** Names where the market is already above par (769076VE7, 271014D66, 271014D58) — at a premium the YTW is to the par call; we will not pay up. Quote yield-to-call if you quote a premium.
4. **Thin names** (test wider): 697479CB7 — the execution risk; tell us which you simply **cannot show**.
5. Names with **no recent customer bid** on the tape (27677SCN1, 357172ZT5, 845389HZ1, 250375HB1, 452641HM8, 551800FJ9, 13050TBA5, 956409AW6, 900211CN1, 769076VE7, 928346PQ2, 925836KH0, 799016FM7, 271014D66, 271014D58, 697479CB7, 058219UM6, 142665GV4) — confirm a market exists at all before we rest a bid.
6. **Relative value:** any better swap in the same maturity/zone/credit at a tighter spread (at or below par)?
7. Odd-lot (~\$40k) handling + settlement — flag any name where odd-lot pricing is punitive.

Staging only — no order is placed until per-name fills are confirmed and approved. We never bid above the call price.
